IT is with great pleasure that we send you this catalog. We are happy that so many of our customers have dealt with us for over a half century. To those who have never ordered from us, we wish to say that we will be pleased to receive your order, no matter how small or large. It shall have our personal attention, and we assure you that your order will be filled to your entire satisfaction, or you may have your Money Back any time within the year. Remember that back of every Maule Seed, Bulb and Plant is a reputation of fifty-two years. Square Deal ing. Ours is one of the oldest and biggest seed houses in America.

Your Garden Guide
The Maule Seed Book is more than a mere catalog of seeds, bulbs and plants. It is a guide to successful gardening; it helps you to plant your garden, both vegetable and flower, and gives you valuable information on planting and cultivating, and tells you when you may expect your vegetables to be ready for the table or market.

Market Gardeners and Florists
We do not issue a separate Market Gardeners' or Florists' Price List. This catalog contains our wholesale prices. As you will note, we are listing all seeds in larger quantities than the home gardener can use. These special prices are intended for our market gardener and florist friends. You are entitled to these low prices.

Terms: Cash with Order
Our terms are cash with order, but if you want your order sent by parcel post or express C.O.D., or freight sight draft bill of lading attached, 25 per cent of the amount must accompany the order. All C. O. D. charges must be assumed by customer. We will not ship plants or nursery stock C. O. D. We cannot accept foreign postage stamps. On all orders of $1.00 and more, you may purchase your money order or register your letter at our expense. Deduct the amount from your remittance.

Low Prices
The Maule policy has always been to sell the very highest quality seeds, bulbs and plants at the very lowest prices; on this point we challenge all competition.

Quality Seeds, Bulbs and Plants
All Maule Seeds, Bulbs and Plants are thoroughly tested for active, abundant and vigorous life. Only the most virile product is shipped. The exacting nature of these tests has won for Maule the reputation, "Once Grown, Always Grown."

Free Delivery
We Deliver Postpaid to Your Door Practically Everything You Need for Your Garden
We pay the postage on all Flower Seeds in any quantity; all Vegetable Seeds in any quantity up to 10 pounds of a kind; all Grass and Farm Seeds up to 10 pounds of a kind except where noted; all Bulbs and Roots in any quantity except where noted. Rose Bushes, Flowering Shrubs, Hedge Plants, Fruits and Nursery Stock are delivered prepaid by parcel post or express, our option, except where noted. On all goods listed "Not Prepaid," the purchaser pays the transportation charges.

Order Early
You cannot plan your garden too early. Why not plan it now? Send us your entire order as soon as possible. TIME OF DELIVERY. Seeds, Books, Fertilizers, Insecticides, etc., will be sent on receipt of order together with such bulbs and roots as may be planted indoors or which if not wanted for immediate planting can be safely kept until your proper outdoor planting time. Asparagus, Horse Radish and Rhus Roots, Potatoes, Perennial Plants, Rose Bushes, Shrubs, Hedges, etc., will be sent at your proper planting season. Our nursery stock is sent out in a dormant condition and must be planted before growth starts in the spring. For best results, therefore, it is important that orders for such stock be sent us before May 1. All orders will be handled by us in the above mentioned manner unless you instruct us to the contrary. Shipments of plants and nursery stock to Mexico and foreign countries will be made entirely at customer's risk.

Maule's Superior Vegetable Seeds

We Strongly Recommend All Varieties Listed In Bold Type With Clover Marks

Artichoke

Culture—Seed may be sown indoors in February or March and plants potted same as tomatoes and set out in the garden after all danger of frost is past, producing heads the first year, or the seed can be sown in hills outside and thinned to one plant to a hill. Plants should be set in rows 4 feet apart and 2 feet apart in the rows. Late in the fall cut off the old tops and thoroughly protect the crowns with leaves or straw to prevent severe freezing.

2 Green Globe

The Favorite Garden Variety, Cooked and Eaten Like Asparagus

A standard variety, grown for its flower-heads. The plant is of medium height with rather deep green leaves. The buds or flower-heads are green, nearly round or somewhat elongated, which are cooked like asparagus. It is considered a delicacy and demands a high price in all better city markets. Requires warm weather to grow to perfection and gives a high yield.

Pkt. 15c; 1/2 oz. 40c; oz. 75c; 1/2 lb. $1.25; 1 lb. $4.00; 10 lbs. $7.50, postpaid

Asparagus

For Roots of Asparagus, See Page 59 in This Seed Book

Culture—Sow in the early Spring in drills 2 to 3 feet apart, scattering about 1 inch apart in the drills. Cover with 1 inch of soil; cultivate freely. A packet will produce about 250 plants; an ounce, about 750 plants; 4 to 6 pounds to the acre. The following spring set out the roots in a permanent bed.

1 Palmetto

A Favorite Variety. Produces large, always green Asparagus

One of the most profitable asparagus on the market; mammoth in size, dark green, heavy yielding and early producing. A standard variety for all purposes. Always commands a high price in all markets.

Pkt. 10c; oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c; 2 lbs. $1.25; 5 lbs. $3.00; 10 lbs. $5.50, postpaid

* 4 Mary Washington Rust-Resistant

The Newest Creation in Asparagus for the Home Garden or Market

This rust-proof asparagus is the result of years of plant breeding, conducted by the Bureau of Plant Industry of the U. S. Department of Agriculture, with the object of eliminating rust, which has heretofore proven so disastrous to asparagus crops in all sections. This strain is not only practically free from rust and other diseases, but it is also larger and more vigorous. In color it is a dark green, with heavy overcast of rich purple. Has a tight, pointed bud, and does not branch out until well beyond the market height. Makes a clean, straight growth. Produces the finest kind of green asparagus, both for home use or market. In appearance, when bunched for market, this asparagus cannot be excelled.

Pkt. 10c; oz. 20c; 1/4 lb. 60c; 1/2 lb. 95c; lb. $1.75; 2 lbs. $3.10; 5 lbs. $7.50; 10 lbs. $13.75, postpaid

Broccoli Known as Winter Cauliflower

Culture—Sow Angiers Broccoli seed early in May. Set plants out in June or early July in rows two to three feet apart each way. Cultivate same as Cauliflower which it resembles. A packet will produce about 250 plants, about 3,000 plants to an ounce.

104 Italian Sprouting Broccoli

Produce Excellent Greens for Summer and Fall Use. 40 days

This distinct Broccoli is now extensively grown by our Italian garden friends. And is becoming more popular in all sections. The plant produces a succession of green stalks like asparagus with leaves and flowers at the end of the shoot and will then be ready for market or table. Seed can be sown in the Spring for Summer and Fall use or in the Fall for early Spring use. Four pound will sow an acre.

Pkt. 10c; oz. 30c; 1/2 lb. 55c; 1 1/2 lb. $1.00; 1 lb. $3.00

2 lbs. $7.50; 5 lbs. $13.25; 10 lbs. $25.25, postpaid

* 103 Early Angiers

Large White Heads 150 days

The large white heads are handsome; of delicate flavor. More hardy than Cauliflower. Growers grown extensively in the northwest for shipping to our eastern markets. The most popular home or market sort. Matures its heads in 150 days.

Pkt. 10c; 1/2 oz. 40c; oz. 75c; 1/2 lb. $2.15; 1 lb. $4.40; 10 lbs. $7.50, postpaid

All Maule Seeds Teem with Vigorous, Healthy Life; Always They Are TESTED: Always They Are GUARANTEED.

Brussels Sprouts

Known as Miniature Cabbage

Culture.—Excessive stem growth should be avoided by planting in good but not extra rich soil. Sow seed in April or May in the open ground, set plants in rows 3 feet apart, 18 inches apart in row. Break leaves from stem to aid formation of heads. A packet yields about 200 plants, an ounce 3,000 plants. Ready for use in about 125 days.

* 108 Danish Prize

Large, Solid Sprouts. 125 days

This large headed variety has proven to be a decided advance on anything yet offered; being of half-dwarf, sturdy growth and producing abundantly large, solid, dark green sprouts of fine quality in 125 days.

Pkt. 10c; oz. 25c; 1/2 lb. 50c; 1 lb. $1.20; 10 lbs. $10.00

Green Pod Bush Beans

CULTURE—Succeed best in warm, sandy loam, enriched with well rotted stable or poultry manure. Must not be sown until the ground is warm and dry. Sow in drills 18 to 20 inches apart, 1 to 2 inches deep, placing the beans 2 to 3 inches apart in the drills; for a succession sow every 2 weeks until September. A packet will sow about 22 feet of row; use 1 pound to 100 feet of drill, 60 pounds to the acre. Bush beans are ready for use in 40 to 65 days. Cultivate frequently but shallow and never when the foliage is wet.

14 Burpee's Stringless Green Pod
One of the Earliest; Round Poded, Always Stringless, Tender and Crisp. 42 days

The Stringless Green Pod is now one of the most popular bush beans in America. In point of earliness it ranks among the first, in quality it is excelled by none, and in bearing ability it stands without a rival. The pods are round, fleshy and nearly straight; are borne in abundance through a long season, being ready for the table in about 42 days. They are five inches long, rich green color, very tender, and of highest and best flavor. They remain long in edible condition. Unexcelled for home use, or for market. Seed of medium size, yellowish brown color.

Pkt. 10c; ½ lb. 30c; 1 lb. 50c; 2 lbs. $1.00; 5 lbs. $1.25; 10 lbs. $2.75, postpaid
Not prepaid, 15 lbs. $4.50; 25 lbs. $7.25; 50 lbs. $14.25; 100 lbs. $28.00

20 Keeney's Stringless Refugee
Perfectly Stringless, Brittle Pods. 60 days

The handsome, round, green pods average about 5 inches long and are brittle and perfectly tender, fleshy and perfectly stringless at all stages of their growth. Fit for the table in about 60 days. Its quality is superlative; for canning it is unequalled, and is very desirable for home or market garden. Seed light drab, thickly mottled purple.

Owing to our seed crop being very nearly a total failure we can only offer by the packet.

Advises planting Round Pod Refugee this year.

16 Fordhook Favorite

A White Seeded, Stringless and Tender, Green Poded Sort 42 days

A green poded bean, perfectly stringless, with white seeds, which can be used for soup or baked beans all winter. The bush grows from 18 to 20 inches high, with dark green foliage, producing an enormous yield of beautiful, meaty, almost round, green pods, averaging 5½ to 6½ inches long. Very brittle and juicy, and above all positively stringless at all stages of its growth; pods ready for use in 42 days. This variety will be found to be one of the best for either the home garden or market.

Owing to very unfavorable growing conditions we regret our seed crop of this popular bean was a total failure. We advise all our customers to plant Burpee's Stringless Green Pod this year.

12 Bountiful

A Continuous Bearer, Tender and Stringless. 42 days

An improved "Long Yellow Six Weeks," producing many more, better and larger green pods. It is very hardy, extremely early, very prolific and bears continuously for several weeks. The green pods are of large size, flat, solid, meaty, stringless and of delicious flavor. Excellent home garden or market sort. Ready for the table in 42 days. Seed a light yellow color.

WM. HENRY MAULE, PHILADELPHIA, PA., 1929
27  **Maule’s Improved Butter Wax Bush Bean**

The Best Yellow Podded Bean for the Home Garden. 40 days

This bean was first offered to us as “Nameless Wax” in 1906, later known as Maule’s Wingold Wax, and now Maule’s Improved Butter Wax; at present, considered one of the best and handsomest general purpose wax beans. Its pods are strictly upright, more uniform in color and size, more attractive than any other wax sort and fully as productive. Snap pods very uniform in size, long to medium, very straight, round medium yellow, extremely brittle, absolutely stringless, without fiber and of excellent quality. The yellow pods are ready for use in about 40 days and are borne equally above and below foliage, never colored or splashed. Seeds are white with a little brown around the eye. In addition to the above this bean is one of the earliest wax sorts, and is rust-proof and free from disease attacks.

WM. HENRY MAULE, PHILADELPHIA, PA., 1929
Maule's Alpha Beet

Best Extra Early Beet for Table or Market. 40 days

Maule’s Alpha beet is ready for market in 40 days from date of sowing. It is what we call a finely made-up beet, as shown in the illustration. It is turnip shaped; a little deeper than Crosby’s Egyptian, with more body and more value. The flesh is of a dark crimson color, and is handsome in appearance. The top is small, which favors close planting. It has a rich, sweet flavor when cooked, and is tender and free from fiber or toughness. It is in fact, undoubtedly, one of the best early table or market beets within our knowledge. Maule’s Alpha beet is worthy of universal trial by gardeners. It is good for the table and good for market, and will at once win public favor by reason of its earliness and its excellence.

Maule’s Cabbage

CULTURE—The plants are started in frame or seed bed, and afterward transplanted. Seed for early cabbages may be started in autumn in a cold frame, or in early spring in a hot bed. For main crop, summer and autumn cabbages, the seed should be sown in a rich border in the open air, in May or June. Sow shallow; a packet will produce about 250 plants, an ounce 3,000 plants: ½ pound for an acre. Set plants 1½ to 3 feet apart. Ready to use in 60 to 130 days.

A Splendid and Profitable Extra Early Cabbage. 70 days

Maule’s First Early is what is wanted for home or market. Its shape, habit of growth and general aspect are well shown in the illustration. It can safely be planted as close as Wakefield cabbage, or a sure header. It excels Wakefield and all other early cabbages in solididity of head: in fact, the flat head is as hard as a stone. It is a choice market sort on account of both shape and quality. It is a beautiful cabbage in appearance, being handsome in color and general uniformity.

Maule’s First Early is the cust. of the earlier crop of Maule’s First Early before they have started to cut Early Wakefield, or Early Flat Dutch.

Controls the Garden or Market from June to October. 95 days

This intermediate sort matures in about 95 days, soon after All Head Early, producing much larger heads, of unsurpassed beauty and solidity. It has noteworthy compactness of growth, which, combined with Midsummer, is a remarkably sure and uniform header, and is one of the most profitable market varieties. It is a truly fine summer cabbage in all respects. From mid-June to October.

112 Maule’s Earliest Express

The Earliest of the Pointed Head Sorts. 70 days

We first introduced this cabbage in 1887. With First Early it holds the place as the earliest cabbage in cultivation, as it has produced fair sized, marketable pointed heads in 70 days. There are few loose leaves, and almost every plant forms a head.

113 Maule’s Prize Jersey Wakefield

Very Early, Solid, Pointed Head Cabbage. 75 days

Maule’s Prize Jersey Wakefield is the earliest and finest strain of this variety. Grown from selected heads only, and is of the finest quality. It has few outer leaves, and in compactness and regularity our strain cannot be surpassed. The thick stout leaves and uniform habit makes it the best sort for very early and close setting. It frequently matures large, hard conical-shaped heads of splendid eating quality within 75 days.

115 Maule’s Winningstadt

Remarkably Hard and Solid. 100 days

Maule’s Winningstadt matures its solid heads in 100 days. The heads are slightly larger than Wakefield and of the proper marketable form. We have not seen other sorts fail, and seems less liable to the attack of the cabbage worm than other sorts.

* 113 Maule’s Prize Jersey Wakefield

* 115 Maule’s Winningstadt

* 117 Maule’s Early Flat Dutch

Large, Solid, Flat Heads. 100 days

Fully developed heads frequently measure 10 to 12 inches across and weigh 12 to 15 pounds each. It also is fine grained and of dainty flavor. The large, flat heads are borne on short stems and are very solid. A sure cropper; practically every plant will form a good, solid head, which are ready to use in about 100 days. It succeeds everywhere, but seems particularly suited to the South, as it has strong heat resisting qualities.

* 118 Charleston Wakefield

An Improved and Larger Form of Jersey Wakefield. 90 days

The Charleston Wakefield is an improved and larger form of Maule’s Prize Wakefield. It requires rather more time to reach maturity, but it yields fully twice the crop of the original Wakefield cabbage. It comes along in a close succession to the earliest cabbage crop producing its pointed heads in about 90 days. It is a strain which cannot be profitably overlooked by any gardener, whether it is intended for a private garden or to be sent to market.

* 110 Golden Acre

The Earliest Round Headed Sort. 70 days

Golden Acre has proven to be one of the most profitable home garden or market varieties for the early crop. Plants are dwarf, allowing close planting; the solid heads are as round as a ball, measuring, when fully matured, about 9 inches in diameter, the average weight of which is 5 pounds; hard as a cannon ball, solid and very uniform. The heads mature in 70 days and practically all at one time, and each is exactly like another in size and form.
127 Glory of Enkhozen
Round, Solid Heads of Superior Merit. 90 days
This desirable cabbage, Glory of Enkhozen, originated in Holland; in season it is medium early, maturing its heads in 90 days, with heads frequently weighing 8 to 10 pounds each. The large sized, ball shaped heads are very firm and solid, leaves being fine ribbed and exceedingly tender. It is a dwarf and compact grower, allowing close planting. Pkt. 10c; oz. 20c; ½ lb. 50c; ½ lb. $1.60; 1 lb. $3.00; 2 lbs. $5.50; 5 lbs. $13.25; 10 lbs. $25.50, postpaid

134 Maule’s Prize Flat Dutch
Well Known and Widely Grown. 110 days
The heads of our Prize Flat Dutch are very large, heavy, solid, flat on top, and of a bluish green color. Our strain is a low growing variety with short stem and comparatively few outer leaves. The quality is fine and the flavor excellent, the heads being white when cut and the inside leaves crisp and tender. It is everywhere a favorite market or kraut variety. It matures in about 110 days, being ready for the table or market in about 90 days. The deep flat heads are remarkably uniform in shape, size and color. Good quality and tenderness is its marked features. Pkt. 10c; oz. 25c; ½ lb. 50c; ½ lb. $1.30; 1 lb. $2.50; 2 lbs. $4.50; 5 lbs. $11.00; 10 lbs. $21.00, postpaid

132 Succession
Does Well in All Seasons; a Sure Cropper. 100 days
The heads are large, nearly round or somewhat flattened, extremely hard and solid, with finely ribbed leaves; the eating quality is not excelled by any other Cabbage. It is suited to all growing seasons, is a sure header under most adverse conditions, and keeps well even if planted very late. Remarkable for its ability to stand the hot sun and dry weather. Matures in 100 days, being ready for the table or market in about 90 days. The heads are very uniform in size and shape, and of handsome appearance. A great success for market gardening. Pkt. 10c; oz. 30c; ½ lb. 90c; ½ lb. $1.45; 1 lb. $2.75; 2 lbs. $5.00; 5 lbs. $12.15; 10 lbs. $23.00, postpaid

133 Maule’s Prize Drumhead
Large, Solid Flat Heads. A Good Keeper. 120 days
It forms very large, hard, solid, flattened heads, uniform in shape and color, and of handsome appearance. It has a very short stem, and is a compact grower. It is an excellent strain for this cabbage to form a head as to form leaves, and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain of Short Stemed Drumhead. Matures in 120 days, being ready for the table or market in about 100 days. Their peculiar form and size being suitable for market gardening. Pkt. 10c; oz. 30c; ½ lb. 90c; ½ lb. $1.45; 1 lb. $2.75; 2 lbs. $5.00; 5 lbs. $12.15; 10 lbs. $23.00, postpaid

130 Pe-Tsai
Chinese or Celery Cabbage. 60 days
Chinese cabbage is so easily grown, that it should be in every garden. It is a dainty table vegetable either shredded or sliced, cooked as other cabbage or trimmed to be eaten as celery. It should be the favorite for Spring use, or grown late as late cabbage planted in July or August for Fall use. When bunched it is almost round, very tender and crisp, and is very tender and crisp. Grows very quickly, being ready to eat in 60 days. Full cultural directions are printed on each package. Pkt. 10c; oz. 30c; ½ lb. 90c; ½ lb. $1.45; 1 lb. $2.75; 2 lbs. $5.00; 5 lbs. $12.15; 10 lbs. $23.00, postpaid

*119 Copenhagen Market
The Best Early Round Headed Cabbage. 75 days
Copenhagen Market is certainly a valuable early maturing cabbage, producing round hard heads of the finest quality for the table or market in seventy-five days. It is the most popular early cabbage in the markets of Copenhagen, and has become very popular in America. Market gardeners here who tried it are strongly in its praise on account of its extreme earliness and solid ten pound heads, with a small core and aways of excellent quality, making it a good seller. The plants are short stemmed, producing heads almost on the ground. The light green colored leaves are medium in size, saucer shaped, and are always tightly folded; the plants may therefore be set closer than most other early varieties. It is a vigorous grower and yields, and an excellent keeper. A most excellent round headed sort for the home garden, as well as for the market gardener. Pkt. 10c; oz. 40c; ½ lb. $1.20; ½ lb. $2.20; lb. $4.00; 2 lbs. $7.50; 5 lbs. $15.00; 10 lbs. $30.00, postpaid

*138 Volga or Stonehead
A Splendid Drought Resister and a Good Keeper. 100 days
This grand cabbage is a great acquisition. In a field of several acres frequently not a single plant shows any variation from a true and valuable type, the large heads are of about equal size and shape, round as a ball, hard and solid, and stand a long time before bursting, producing heads in about 100 days. Pkt. 10c; oz. 35c; ½ lb. $1.10; ½ lb. $1.75; 1 lb. $3.25; 2 lbs. $6.00; 5 lbs. $14.50; 10 lbs. $27.50, postpaid

116 All Head Early
The All Year Round Cabbage. 90 days
It has proven itself to be adaptable to a wide range of both soil and climate, and is well worthy of recognition as a standard American sort. It is a money maker for gardeners, and a very desirable sort in every garden. It is the earliest of large cabbages, being ready for the table or market in about 90 days. The deep flat heads are remarkably uniform in shape, size and color. Good quality and tenderness is its marked features. Pkt. 10c; oz. 30c; ½ lb. 90c; ½ lb. $1.45; 1 lb. $2.75; 2 lbs. $5.00; 5 lbs. $12.15; 10 lbs. $23.00, postpaid

120 Maule’s Early Baby Ball Head
An Extremely Early, Round, Solid Head Sort. 68 days.
Its extreme earliness makes it a desirable sort for forcing — producing firm, well-shaped, solid white heads which are crisp and of delicious quality in about 68 days. The peculiar advantage at this extremely early cabbage is that it requires very little space to grow, in comparison to other early varieties of cabbage; also its remarkable firmness and delicious taste. Originator’s stock, grown in Denmark. Pkt. 10c; oz. 30c; ½ lb. $1.40; ½ lb. $2.60; 1 lb. $4.75; 2 lbs. $8.75; 5 lbs. $21.15; 10 lbs. $40.00, postpaid

123 Maule’s Disease-Resistant Wisconsin Hollander

The “Yellow Rot” Disease-Resistant Sort. 120 days

This grand strain of Hollander cabbage we recommend for locations where cabbage plants are affected by the “yel-

low,”” caused fields to be abandoned. The disease-resistant qualities of this cabbage enable growers to produce a crop of medium size round or somewhat flattened heads of re-

markable solidity and excellent keeping qualities. Matures in about 120 days. The plants show considerable variation of
types, resemble Hollander.

140 Red Danish Round Head

Round, Solid, Dark Red Heads. 110 days

This is the newest and most superior variety of red
cabbage. It originated in Denmark and is considered one
of the best strains introduced. The plants are strong and
compact in growth, producing dark red, round, solid heads
of medium size, equally as hard and handsome in appearance
as our famous Danish Ball Head. The red color extends to
the center of each head, making it a valuable sort for the
home garden, market or pickling. Matures in 110 days.

Pkt. 10c; oz. 35¢; ½ lb. $1.10; ½ lb. $1.75; lb. $3.25;

125 Danish Round Head Cabbage

Heaviest Yielding Strain, Often Producing 22 Tons Per Acre. Excellent for Making Slaws and Sauer Kraut. 110 days

In this strain we have very large, solid heads on short
stems, produced in 110 days, having the same keeping
quality as the original strain of Danish Ball Head, so widely
known. It is 10 days to 2 weeks earlier and produces a
larger yield than any of the so-called Danish cabbages. It
is especially valuable for high, dry land, producng good
sized heads where other strains would be too small. For
shipping in the late fall or winter there is no finer cabbage
than this strain. Danish Round Head is exceedingly hard in
resisting cold and stands dry weather well. Our stock
comes direct from the originator in Denmark.

125 Danish Ball Head

Our Strain of this Seed is Simply Unsurpassed. 120 days

Danish Ball Head cabbage produces its crop in about 120
days. It is sure to head, the heads being round, hard and
extremely heavy, though not extra large. It can be grown
in close quarters, on account of its compact habit. As to its
keeping qualities, it comes out of the pit in March or April
as fresh as when put in, and with no waste. It is popular in
the markets of all the large cities. Our seed of this popular
cabbage comes to us direct from the best growers in Denmark.

Pkt. 10c; oz. 35¢; ½ lb. $1.10; 1 lb. $1.75; ½ lb. $2.25; 2 lbs. $6.00;

135 The Houser

The Latest Cabbage of Them All. 130 days

This excellent cabbage will average about 12 pounds at
maturity, and the heads are uniformly handsome. The shape
is round and deep.

In quality the Houser cabbage equals the best, being very
free from the coarse ribs found in most late sorts. In fact,
we would say that the Houser cabbage is very well bred. It is
a strong, vigorous grower, with ability to withstand drought
deeper than most varieties. Matures in 130 days.

Pkt. 10c; oz. 50¢; ¼ lb. $1.40; ½ lb. $2.65; lb. $5.00; 2 lbs. $9.20;

WM. HENRY MAULE, PHILADELPHIA, PA., 1929
Maule’s Cauliflower

Culture—Start plants in frame or seed bed, and transplant. Seed for early cauliflower may be started in Autumn in a cold frame, or in early Spring in a hot bed. For main crop, Summer and Autumn, the seed should be sown in May or June. A packet will produce about 150 plants, an ounce about 3000 plants; ½ pound for an acre. Set the plants 2 to 3 feet apart each way. Ready for use in 80 to 130 days.

166 Maule’s Always Heads
The Popular and Perfect Heading. 100 days
The name well illustrates the strongest characteristic of this Cauliflower, that in season and out of season it can always be depended upon to make a head. Produces solid pure white heads in 160 days. It is an absolutely unsurpassed strain. Excellent home garden or market sort.

Pkt. 15¢; ¼ oz. 55¢; ½ oz. $1.50; oz. $2.75; ¼ lb. $7.75; ½ lb. $14.50; lb. $27.50, postpaid

165 Dry Weather

Reaches Perfection When Ordinary Sorts Fail. 105 days
This desirable strain originated in Denmark, but has been fully tested in America with the most favorable results. It produces a large, solid, pure white head, maturing in about 105 days, a little later than Maule’s Prize Earliest. It is in all respects a first-class Cauliflower, but is especially and peculiarly adapted to dry situations and to resisting the effects of drought. It will also do well in moist or wet seasons making heads equal to any. Excellent home or market sort.

* 164 Maule’s Prize Earliest

The Earliest, Largest and Surest White Header Grown
90 days
Heads the list as the earliest, finest and handsomest cauliflower. Whether for forcing under glass or growing in the open ground, and whether planted early or late, it is the surest header of all, maturing its heads in about 90 days. It is very dwarf and compact in habit of growth, like the Snowball, and can be planted as close as 12 inches each way for forcing or where space is limited. Maule’s Prize Earliest is particularly desirable for forcing under glass, while in our open air trials every plant has produced a head, excelling all other varieties in earliness, size and quality; undoubtedly the finest and most popular early cauliflower grown, either for the home garden or market.

Pkt. 25¢; ¼ oz. $1.00; ½ oz. $1.50; oz. $2.50; ¼ lb. $8.00; ½ lb. $15.00; lb. $25.00, postpaid

* 168 Early Snowball

Large Solid White Heads. A Sure Cropper. 95 days
This standard variety is known everywhere, either in the home garden or with the market gardeners. Produces large solid white heads when conditions are ordinarily favorable in about 95 days. Averages about 9 inches and often attains a size of 12 inches in diameter.

Being one of the earliest strains of cauliflower it becomes one of the most popular sorts, either for forcing under glass during winter and spring, or for planting in the open ground. The plants are of compact habit, which enables close planting.

Garden Carrots

CULTURE—Sow in drills in early Spring until July. Cover 1/2 to 1 inch and vary the soil about seed; afterward thin to plants to 2 to 6 inches. Make rows 12 to 30 inches apart. Use a packet to 80 feet of drill, an ounce to 400 feet, 2 to 3 pounds to the acre. Ready to use in 45 to 75 days.

* 152 Maule's Danvers Half Long
The Popular Carrot for the Home Garden or Market. 70 days
This variety is well adapted to all soils and sections, and some years it leads our whole list as the best seller. It is half long in shape, almost cylindrical, and somewhat stump rooted, and one of dark orange color. We claim that it will yield greater bulk and weight for a given length of root than any other carrot now grown. Over 40 tons of acre Maule's Danvers have been grown, and a yield of 25 to 30 tons per acre is not uncommon. Matures its crop of beautiful shaped roots in 70 days. Grows extremely by market gardeners for bunching and makes a handsome appearance on the market stalls; of the finest quality and one of the most popular sorts for home use.

Sow seed of Carrots, for winter storing, in June. Carrots from earlier sowings are too old for winter use.
Maule’s Celery

CULTURE—Celery seed is slow to germinate, and ample time must be given. Sow thinly in early spring and cover lightly. Keep constantly moist. Count out about 100 plants to a packet of seed, about 7,500 plants per ounce or quarter pound per acre. When the seedling plants are 3 inches high they should be clipped at the top, to favor stocky growth, or else transplanted. Celery is mostly grown under flat culture, without trenches, in rows 4 feet apart, 6 inches apart in row. For home use celery is often grown in double rows, 10 inches apart, and plants 6 inches apart in each row, allowing 4 feet of space before setting out another double row. This will permit soil for banking for winter storage without lifting. Ready for use in 110 to 140 days.

* 176 Golden Plume or Wonderful
Blight Resistant and Free from Strings or Hollow Stalks. 110 days
A new type of the famous Golden Self-Blanching Celery. The plants are semi-dwarf with thicker stalks, very full hearts, and wider leaves. Plants grow to a beautiful golden yellow color, ready for the table or market in 110 days. Its attractive appearance, superior quality, fine nutty flavor and resistance to attacks of blight and rancidness make it a very profitable variety for the market gardener.
Pkt. 15c; ½ oz. 60c; oz. $1.10; ¼ lb. $3.30; ½ lb. $6.00; lb. $11.00; 2 lbs. $20.45; 5 lbs. $45.00; 10 lbs. $82.50, postpaid

180 Columbia
Valuable for Fall or Early Winter Use. 115 days
This is a valuable celery to follow Golden Self-Blanching. Stored at the same time, it will be ready just as soon as the Golden Self-Blanching is done. The stalks are broad and thick, almost round, and of the highest quality, and very attractive in appearance. The foliage is of a distinct light shade of green with a tinge of yellow. The plant is of medium height which matures in 115 days.
Pkt. 5c; ½ oz. 15c; oz. 35c; ½ lb. 80c; ¼ lb. $1.20; ½ lb. $2.25; 2 lbs. $4.10; 5 lbs. $10.00; 10 lbs. $16.00, postpaid

* 189 Maule’s American Yellow
The Favorite Self-Blanching Sort for Home and Market. 110 days
Maule’s American Yellow Celery is an early, self-blanching sort very similar in many ways to the French grown Golden Self-Blanking. It is a larger stalk, with the additional advantage that it fills a standard celery crate more evenly, maturing its beautiful golden yellow stalk in 110 days.
Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. $1.55; ½ lb. $3.50; ¼ lb. $6.50; 2 lbs. $12.00; 5 lbs. $29.00; 10 lbs. $53.00, postpaid

* 186 Easy Blanching
Easiest and Quickest to Blanch; Long Keeping. 115 days
The heavy stalks are stocky in growth and of medium height and are the easiest and quickest to blanch and keep better in the trench than others. The tender, brittle, sweet, nutty flavored stalks have an attractive appearance. Ready for the table or market in 115 days.
Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. $1.85; ½ lb. $3.50; ¼ lb. $6.50; 2 lbs. $12.00; 5 lbs. $29.00; 10 lbs. $53.00, postpaid

185 Winter Queen
Best Winter Sort. A Money Maker. 140 days
Probably the most desirable winter keeper of celery. It is short, stout, thick and heavy, with double the amount of heart of any other celery, a habit of growth which gives it truly remarkable value. The flavor is sweet, nutty and delicious, leaving nothing to be desired. It bunches up handsomely. The leaves are light green, and blanched to a cream white. Matures its crop in 140 days. It is a money maker for the market gardener.
Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 60c; ¼ lb. $1.20; ½ lb. $2.25; 2 lbs. $4.10; 5 lbs. $10.00; 10 lbs. $19.00, postpaid

182 Giant Pascal or Winter King
The Largest Ribbed Celery. 140 days
This celery has the sweet, nutty flavor of Golden Self-Blanking, of which it is an offspring. The stalks are about 2 feet high, thick, solid and the insolent, and as brittle as glass. Matures in 140 days. It is an elegant winter keeper for home or market.
Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 60c; ¼ lb. $1.45; ½ lb. $2.75; 2 lbs. $5.00; 5 lbs. $12.15; 10 lbs. $23.00, postpaid

188 Celeriac
Or Turnip-Rooted Celery. 120 days
Culture is the same as celery; as the roots are the edible portion, it requires no hilling. The large roots are smooth, without any side roots, globular in shape. Flesh is pure white, tender and of excellent flavor and quality. Celeriac deserves to be grown much more than it is as the roots are used for flavoring soups and salads, or are boiled like turnips, having the pleasant celery taste. Fit for the table in 120 days.
Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 60c; ¼ lb. $1.20; ½ lb. $2.25; 2 lbs. $4.10; 5 lbs. $10.00; 10 lbs. $19.00, postpaid

WM. HENRY MAULE, PHILADELPHIA, PA. 1929
Maule's Golden Self-Blanching Celery

XX Selected French Grown Original Dwarf Strain. 110 days

Our XX Selected French Grown Golden Self-Blanching celery is absolutely the best strain of this variety that we know. It is as true to type as any variety on the market. In quality it ranks with the highest. It is the favorite sort with both the market gardener and the amateur.

It is dwarf to half dwarf, growing 1½ to 20 inches in height, wonderfully stocky, very heavy, perfectly solid, of delicate flavor and a very good keeper, ready for the table or market in 110 days. Added to these points is its great distinctive feature of being literally self-blanching.

All the largest and most experienced celery growers plant Maule's Golden Self-Blanching XX Selected French Grown seed. The top notch prices which they receive from their commission merchant produces an enormous profit annually.

Maule's Golden Self-Blanching XX Selected French Grown produces a bumper crop of excellent celery which stands shipping better than most other sorts, and brings the highest market prices. In the home garden the golden yellow stalks, which are crisp, and nutty in flavor, keep in good condition until Christmas or New Year.

WM. HENRY MAULE, PHILADELPHIA, PA., 1929
205 Maule’s Colossal Early

For the Home Garden or Market. 70 days

The Finest Large Eared Sugar Corn in Existence

The first real rival of the Shoe Peg or Country Gentleman, as large as Stowell’s Evergreen, and of delicious flavor.

Frequently matures fine large ears ten weeks from planting

Maule’s Colossal has four principal points that especially recommend it: First—Earliness. It has matured a crop in 60 to 65 days under extraordinary circumstances, but can generally be depended upon to produce ears of marketable size within 70 days.

Second—Flavor. It is the most delicious sugary corn you have ever eaten. Third—Size. It is undoubtedly the largest eared early sugar corn in existence, as the ears average from 7 to 9 inches in length, and frequently 2½ to 3 inches in diameter, with 12 to 14 rows of large sweet kernels that fairly melt in your mouth.

Two or three ears are generally found on every stalk; it grows from 6 to 7 feet tall, which furnishes a most desirable fodder.

Fourth—A Money Maker. Every market gardener should grow Maule’s Colossal Early sugar corn. It will prove profitable, as it is a money maker.

This is also a desirable variety for the home garden, as the quality of this corn is extra fine, being tender, sweet and delicious.

Pkt. 15c: ½ lb. 30c; lb. 50c; 2 lbs. 90c; 5 lbs. $2.00; 10 lbs. $3.65, postpaid

Maule's Ideal Early Corn
Do you want delicious corn on your table the 4th of July?
If so, plant this extremely hardy, early maturing, large eared sort. 55 days

We have produced in this early corn a variety which stands alone as a money maker. It is in the same class as the Earliest Of All sugar corns, considerably larger, and, best of all, contains a sweetness equal to most true sugar varieties. It has the power of germination under conditions where all others have failed, and can safely be planted much earlier than any true sugar corn on account of its extreme hardi-ness. It adapts itself to any kind of soil, either sand or heavy clay. It is as large as Stowell's Evergreen. The fodder grows 6 feet high; no small item to a gardener; and as a proof of its quality and sweetness, we have a continuous call for 'Ideal' from our customers year after year. In earliness, any one growing this variety white corn will have the crop marketed and the money in his pocket before any of the early sugar corns are ready. Matures in 55 days. No gardener should fail to plant Maule's Ideal Early Corn.

The only way to have good, sweet, sugary Corn is to grow it yourself.
Maule's Cucumbers

CULTURE—Flourish best in a rich, warm, sandy loam. Sow when danger of frost is over, in hills 4 or 5 feet each way. As the young plant has many enemies try to place them thickly, half an inch deep, and thin out finally to three or four plants to the hill. For pickles plant during June and July. Use a packet of seed to 15 hills; an ounce to 75 hills; two to three pounds to the acre. Ready to be picked 26 days. Use large cucumbers by cutting, not tearing. Leave none to ripen on the vines if you want a full crop.

* 244 Maule’s Extra Early
First for the Table, Market and Pickling. 55 days.

This widely popular cucumber is as early as Green Cluster. Although early, the fruits are of fine quality, and the color an attractive dark green. When suitable for pickling, the cucumbers are straight, square ended and very firm. When ready for slicing they are 6 to 7 inches long, crisp and of a most delicious flavor. The vines are of extra vigorous growth and produce an abundance of fruits, which are fit for the table or market in 55 days. Its extreme earliness is, however, its greatest recommendation, making it invaluable. Its earliness and its very high quality make it a good variety for both home and market gardens.

Maule’s Tomatoes

CULTURE—Sow the seed in February or March in a hotbed, greenhouse or in shallow boxes in the house in rows 4 to 6 inches apart and half an inch deep. When the plants are about 2 inches high transplant to 1-inch pots or into shallow boxes 4 inches apart each way. Transplant in the open ground after all danger of frost is past, 3 to 4 feet apart each way. Cultivate frequently. A packet will produce about 100 plants, an ounce about 3,000 plants, enough for an acre. Ready to pick in 85 to 120 days.

651 Maule’s Earliest of All Tomatoes

The Greatest of All Early Tomatoes. 85 days

Four Days to a Week Earlier Than Any Other Tomato (Bright Red.) Maule’s Earliest of All is the best extra early tomato in America for the home or market gardener. Nor is its extreme earliness its only virtue, for it is of large size, good color and delicious flavor. It does not crack and has no large core. Color is a bright red, a little irregular in shape, but not rough. Ready to pick in 85 days.

Maule’s Earliest of All is all its name implies, namely, the earliest tomato in existence, notwithstanding the claims made for June Pink, Earliana, King of the Earlies, Wayahead, Chalk’s Early Jewel, John Baer, etc.

653 Sparks Earliana

Extremely Early, Good Size and Quite Smooth. 90 days

(Scarlet Red.) Very popular with many growers of tomatoes for early market. The fruits are of good size, scarlet red color and crowded in clusters over the entire plant. An excellent first early tomato for home use.

Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. $1.10; ½ lb. $1.85; lb. $3.50; 10 lbs. $25.50, postpaid

659 Greater Baltimore

Firm and Meaty. Excellent for the Table. 110 days

(Brilliant Red.) This grand, early variety produces large, bright red tomatoes in clusters in about 110 days. The vines are vigorous, compact and healthy growers; a heavy cropper of large, smooth, well formed tomatoes; deep from stem to blossom end. Very firm and meaty. Free from ridges, cracks and blight. For canning or the home garden the results have been far beyond expectations.

Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. $1.10; ½ lb. $1.85; lb. $3.50; 10 lbs. $25.50, postpaid

* 660 John Baer

Early, Smooth, Solid and Meaty Tomato. 95 days

(Bright Red.) This grand early tomato produced in 95 days, very large and attractive bright red colored fruit. The introducer has this to say: John Baer produces large, beautiful, solid tomatoes which ripen early right up to the stem and is an enormous cropper, and when dead ripe will not burst.

Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. $1.10; ½ lb. $1.85; lb. $3.50; 10 lbs. $25.50, postpaid

662 June Pink

The Earliest of All Bright Pinks, a Pink Earliana. 95 days

(Bright Pink.) June Pink ripens in 95 days, as early as Earliana. In markets where pink varieties are preferred it is a great seller. The vine is compact and branches freely, with handsome, good size, deep pink fruit hanging in clusters of 6 to 8.

Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. $1.65; ½ lb. $3.10; lb. $5.75; 2 lbs. $10.60; 5 lbs. $25.65; 10 lbs. $48.45, postpaid

* 663 Bonny Best

Early, Large and Smooth; Heavy Cropper. 100 days

(Scarlet Red.) This variety is a vigorous grower; enormously prolific. In shape it is slightly flattened but thicker through than most other tomatoes. In color it is a beautiful scarlet red, setting its fruit in clusters of five or more at close intervals. Ready to pick in 101 days. Makes a magnificent tomato for all purposes, growing in all sections.

* 704 Japanese Turnip

A Large, Tender and Sweet Turnip. 70 days

This turnip is a large white variety, of great merit, and comes directly from Japan; in fact, the seed which we offer was actually grown in Japan, and was imported expressly for this season's sales. The shape of the turnip is between flat and globe. The color is pure white, both on outside and inside, except that there is a pale tinting of green on top, near the leaves. As it is a large turnip it has correspondingly large and vigorous leaves. It is solid and meaty in flesh. A heavy cropper and reliable winter keeper it cannot be excelled, and we are able to recommend it highly to all growers. It will be found adapted to table use as well as to stock. Maturing in 70 days.

Keep all garden space planted; as soon as the early leaf crops are gone, plant Turnips or Ruta Bagas
Ruta Bagas or Swede Turnips

CULTURE—Does best on new land, or light and sandy soil. Sow the seed from the latter part of June until August in drills 15 to 24 inches apart. Cover seed ½ inch and thin out to 6 to 8 inches in the rows. Cultivate frequently. Can be sown broadcast. Use a packet to about 50 feet of drill, an ounce to 250 feet. 1½ pounds to the acre in drills or 2½ pounds broadcast. Ready to use in 50 to 95 days.

* 710 Maule’s Golden Heart

The Quickest Grower and a Sure Cropper. 80 days
For Colored Illustration See Front Cover

This grand Ruta Baga is large, perfect in shape, uniform in size and the quickest grower we know of. Roots are globe shape, smooth; flesh yellow, fine grained, solid, tender and sweet. A sure cropper; a perfect winter keeper. Can be planted as late as August 15th, in the vicinity of Philadelphia, producing a crop when other sorts fail. Matures in 80 days. An excellent home garden or early market sort.

Pkt. 10c; oz. 20c; ¼ lb. 45c; ½ lb. 75c; lb. $1.25; 2 lbs. $2.25; 5 lbs. $5.25; 10 lbs. $10.75, postpaid

* 713 White Rock

Known as Breadstone. A Reliable Keeper. 90 days

This fine grade white ruts baga is an American variety and in all sections it has long had an enviable reputation as an extra good cropper and reliable keeper. Roots large, nearly globe shape, small neck, firm and sweet, with a shade of green or bronze at the top; flesh white. Matures in 90 days. It is equally desirable for table purposes or for stock feeding.

Pkt. 10c; oz. 25c; ¼ lb. 45c; ½ lb. 90c; lb. $1.20; 5 lbs. $2.75; 10 lbs. $5.00, postpaid

MATURITY DATES

At the heading of all VEGETABLE SEED descriptions we are giving the maturity dates starting from date of sowing the seed, thus (90 days). This will tell you when you may expect vegetables ready for the table; of course the weather conditions must be favorable for producing the crops.

* 708 Improved Purple Top or Long Island

Very Richly Colored, Fine Grained and Sweet. 90 days

Next in yield and value after our Heavy Cropping Swede, we place this old standard variety. It is of fine quality and is widely grown. It keeps perfectly all winter. It is hardy, productive, sweet, solid and satisfactory. It is globe shaped, purple top, yellow skin and flesh, with smaller top and shorter neck than most sorts. It is held in high esteem for both table and stock feeding purposes, as the roots grow fairly smooth, with comparatively small taproot; uniform in shape, color and quality. Flesh is crisp, fine grained and solid. Matures in 90 days.

Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. $1.20; 5 lbs. $2.75; 10 lbs. $5.00, postpaid

710 Maule’s Heavy Cropping

The Perfect Ruta Baga, with Firm Yellow Flesh. 85 days

Maule’s Heavy Cropping Ruta Baga is more largely grown than any other variety. It is the most profitable to grow of all yellow top swede turnips, being the hardest, heaviest, best shaped and most productive. The roots are better keepers than most sorts. The flesh is of a beautiful yellow color, of the choicest quality, full of nourishment. Excellent for table use and stock feeding. Matures in 85 days.

Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 80c; 2 lbs. $1.40; 5 lbs. $3.25; 10 lbs. $6.50, postpaid

Horse Radish Sets

Culture is by sets or root cuttings. These sets are planted vertically in rows or furrows 2 to 3 feet apart and 15 to 18 inches apart in rows with the small end down, so that the top end is about 2 inches below the surface. Ready to use in the late fall or winter.

69B84 Maliner Kren

The Large White Horse Radish from Bohemia

The roots are so much larger and heavier than the common variety that the yield is about doubled. Then, too, it matures much quicker, which enables the grower to market or use his roots earlier. The flesh is pure white.

69B88 Victoria

Thick luscious stalks shaded bright crimson.

Rhubarb Roots

CULTURE—Young roots which, if planted in good soil early in the spring, will make a strong growth and yield stalks for the table or market the following spring. The plants increase in size every year and will with proper care last for years.

69B76 Ebenezer or “Japanese” Sets

This is a fine, popular variety, the large, mild onions being very slow in running to seed even in unfavorable seasons.

69B78 White Multiplier or White Potato

Producing a cluster of large white skin onions. Flesh white, mild flavor. Hardy, early and good cropper. Excellent quality and size for bunching.

69B80 Yellow Potato or Yellow Multiplier

It is a large yellow skin onion, fresh white and mild in flavor, and a good cropper. Will produce either small or large, dry ripe onions earlier than any other kind.

Maule’s Onion Sets

CULTURE—Onion sets should be planted as early in the spring as the ground can be worked. Set the onions in the ground lightly (do not cover) in shallow furrows, 12 to 18 inches apart and about 2 inches apart in the row. Young onions may be had in 5 weeks. By planting sets, onions can be produced for market or household use 4 to 5 weeks earlier than can be raised from seed.

Onions from sets are usually harvested in the locality of Philadelphia in July, which allows the sowing of another crop on the same ground the same season. A pound of onion sets will plant a row about 100 feet long, use 250 lbs. to 325 lbs. to an acre.

69B70 Maule’s Yellow Globe Danvers Sets

This is one of the best and most popular for raising early big yellow onions from sets.

69B72 Maule’s White Silver Skin Sets

These sets will produce beautiful, silvery-white onions very early in the season. A favorite sort for home and market gardeners.

69B74 Maule’s Red Wethersfield Sets

Very hardy; good keepers. One of the best red onions for all purposes.

69B84 Garlic Sets

69B84 Garlic Sets

Garlic Sets

Used for Flavoring. 150 days

A bulbous root of the onion type, esteemed for flavoring soups, stews, etc.

CULTURE—The bulbs (sets) are composed of several parts, which should be divided and planted in rows 1 to 3 feet apart, 6 inches apart in the rows and one inch away from the bulb. The tops will turn yellow and dry in the shade.

Maule’s Farm and Grain Seeds

The following varieties of field and grain seeds are especially adapted to Spring, Summer and Fall sowing. In the description of each variety we give the quantity of seed required to plant an acre. Write for special prices on larger quantities. We make no charge for bags.

Prices on pages 60 to 66 are subject to change without notice.

787 Imp. Evergreen Broom Corn

The best. Brush firm, of good length and bright green color. The standard sort. Sow in drills, using 16 to 12 pounds of seed per acre.

Pkt. 10c; lb. 30c; 2 lbs. 60c; 5 lbs. $1.40;
10 lbs. $2.50, postpaid.
Not prepaid, 11 1/2 lbs. (peck) $1.60;
23 lbs. (1/2 bu.) $1.75; 46 lbs. (bu.) $3.25.

789 Japanese Buckwheat

The best and most profitable variety. From 1/2 bushel of seed sown a crop of 40 bushels has been harvested. Flour is superior to that from any other variety. Ripens early.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid.
Not prepaid, 12 lbs. (peck) 75c;
24 lbs. (1/2 bu.) $1.25; 48 lbs. (bu.) $2.25.

849 Spring Rye

Used with profit as a catch crop where grain has winter killed. Quite commonly employed recently. Sow 84 lbs. to 112 lbs. to the acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid.
Not prepaid, 14 lbs. (peck) 85c;
28 lbs. (1/2 bu.) $1.50; 56 lbs. (bu.) $2.75.

829 Canada Field Peas

Sown with Oats Makes Good Feed for Cows

Makes good winter cover crop. Greatly improves the soil, and is an excellent food, either green or dry, for cattle. It is quite hardy, may be sown early in the spring. Sow at the rate of 120 pounds per acre alone, or 60 pounds of Canada Peas mixed with 48 pounds of oats to the measured bushel. These oats are quite early, less liable to smut or rust than other sorts. Sow at the rate of 64 to 86 pounds to the acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.
Not prepaid, 15 lbs. (peck) 95c;
30 lbs. (1/4 bu.) $1.35; 60 lbs. (10 bu.) $2.50.

841 Improved Swedish Oats

A Wonderful Stooler and Reliable Yielder

The greatest yielding white seeded branch oats for spring sowing, ranking first in weight, stiffness of straw and thin hulling qualities. The stiff straw which holds up unusually well grows from 2 to 5 feet tall with heads measuring from 8 to 11 1/2 inches long and produces grain weighing from 16 to 40 pounds to the measured bushel. These oats are quite early, less liable to smut or rust than other sorts. Sow at the rate of 64 to 86 pounds to the acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.
Not prepaid, 8 lbs. (peck) 50c; 16 lbs. (1/2 bu.) 75c; 32 lbs. (bu.) $1.35; 60 lbs. (10 bu.) $2.50.

860 Hairy or Winter Vetch

This useful plant is noted for its extreme hardiness. As a winter cover crop, to prevent leaching, as well as for grazing, hay and fertilizing purposes, it is one of the best. Sow 90 pounds of seed per acre alone, or 60 pounds of Vetch with 28 pounds of winter rye or oats.

Pkt. 10c; lb. 30c; 2 lbs. 60c; 5 lbs. $1.60;
10 lbs. $3.00, postpaid.
Not prepaid, 15 lbs. (peck) $2.50;
30 lbs. (1/2 bu.) $4.75; 60 lbs. (bu.) $9.00.

861 Spring Vetch

Spring Vetch or Tares is a rapid grower and should be sown in May or June. It is highly recommended for making a fine grade of hay, for excellent grazing or for turning under to improve the land. It makes a splendid substitute for clover on sections or on lands that will not grow clover. It is much relished by all stock. It is very rich, nutritious, containing even more protein than alfalfa. Sow 90 pounds per acre alone, or 60 pounds of Vetch with 28 pounds of spring wheat, rye or oats.

Pkt. 10c; lb. 30c; 2 lbs. 60c; 5 lbs. $1.40;
10 lbs. $2.65, postpaid.
Not prepaid, 15 lbs. (peck) $1.75;
30 lbs. (1/2 bu.) $3.00; 60 lbs. (bu.) $5.50.

863 Marquis Spring Wheat

The Popular Milling Sort

A wonderful variety which has become popular and met with widespread interest. It is remarkably early, pale red grained and exceedingly productive. Sow at the rate of 90 to 120 pounds per acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid.
Not prepaid, 15 lbs. (peck) $1.15;
30 lbs. (1/2 bu.) $2.00; 60 lbs. (bu.) $3.50.

861 Improved Swedish Oats

Yields More than Wheat or Barley

It ripens early; the grain is intermediate between wheat and barley. The chaff adheres to the grain when threshed, and is held in that condition to stock. It is adapted for milling purposes, as well as for feeding, making a grade somewhat similar to rye. The straw resembles wheat straw. It grows large crops—40 to 60 bushels per acre—not carefully tended, actively poor soil, and it is said to give full double the crop of barley. It resists drought successfully, and is adapted to Northern latitudes. Sow in the spring or in the fall at the rate of 100 pounds per acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid.
Not prepaid, 10 lbs. (peck) 85c;
20 lbs. (1/2 bu.) $1.50; 40 lbs. (bu.) $2.75.

Maule’s Sorghums and Forage Crops

Millets

833 German or Golden Millet
A fine crop for both sowing and hay. For the latter purpose it must be sown just before the head begins to show. It is ready for use in 60 to 65 days after sowing. When used in the proper stage of development it is one of the most valuable of cutting plants. Sow 48 pounds per acre for hay.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15.

Not prepaid, 12 lbs. (peck) $1.75; 24 lbs. (1/2 bu.) $3.50; 50 lbs. (bu.) $6.90.

836 Pearl or East Indian Millet
Also called Pencillaria or Cattail Millet. This plant grows 5 to 10 feet high and furnishes an enormous bulk of fodder. It can be cut several times during the season. It prefers moist, well-drained soil and does not require a great deal of work. A variety of the Chinese millet.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15.

Not prepaid, 12 1/2 lbs. (peck) $1.75; 25 lbs. (1/2 bu.) $3.50; 50 lbs. (bu.) $6.90.

852 Early Amber Sorghum Cane
Relished by All Kinds of Stock
A saccharine sorghum. An early Southern variety grown almost exclusively for forage or broadcast with peas. Sow broadcloth or broadcast with peas. Sow broadcast, use 50 pounds seed per 1000 pounds of combined. It is a good grain for growing in hot, dry weather. Sow in drills 3 inches apart, using 5 pounds of seed per 1000. For use as hay, broadcast, sow 8 pounds to the acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15.

Not prepaid, 12 1/4 lbs. (peck) $1.15; 25 lbs. (1/2 bu.) $2.00; 50 lbs. (bu.) $3.50.

854 Texas Seeded Ribbon Cane
The Favorite for Syrup
A saccharine sorghum. One of the best varieties for making syrup and used extensively for feeding stock. This variety will grow anywhere that a sorghum will grow and produces a larger yield. The stalks grow 12 to 16 feet high and mature early. Sow seed broadcast, using 50 pounds per acre or in drills 12 1/2 pounds of seed per acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.

Not prepaid, 12 1/4 lbs. (peck) $1.15; 25 lbs. (1/2 bu.) $2.00; 50 lbs. (bu.) $3.50.

837 White Swiss Barley
The Heaviest Yielding Six Rowed Barred Sort
The straw is very strong and stiff, growing from 3 to 4 feet high. The heads are of the bearded type, long and well filled with six rows of plump grains of the finest quality. It yields abundantly, an excellent variety for growing on light, thin soils, while on rich, fertile soils its yields are wonderful. It is a great drought resistant and especially adapted to Northern latitudes. For hay, malt, milling, and feeding it has now taken its place to an extent that it is a menace to the farmers of this country who until a few years ago were content to growth hay in the open fields.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.

Not prepaid, 12 1/4 lbs. (peck) $1.15; 25 lbs. (1/2 bu.) $2.00; 50 lbs. (bu.) $3.50.

819 White Kaffir Corn
Relished by Poultry and Cattle
A valuable non-saccharine sorghum, producing two to four heads to the stalk. The stalks make excellent fodder, and the stock food, also splendid dairy feed. For grain, use 4 to 5 pounds of seed per acre; for fodder, sow 28 to 56 pounds in drills or broadcast.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.

Not prepaid, 14 lbs. (peck) $1.10; 28 lbs. (1/2 bu.) $1.90; 56 lbs. (bu.) $3.50.

830 Feterita The Great Drought Resister
A non-saccharine sorghum, maturing its crop earlier than the white or yellow millet. It grows about 5 feet high. Excellent for feeding chickens or any stock. For grain, sow 5 pounds per acre in hills or drills. For fodder, sow 25 pounds per acre, broadcast or in rows.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.

Not prepaid, 14 lbs. (peck) $1.10; 28 lbs. (1/2 bu.) $1.90; 56 lbs. (bu.) $3.50.

839 Yellow Milo Maize
Excellent For Ensilage
A non-saccharine sorghum: cultivated like corn, a vigor grower, attaining a height of 16 feet. It will stand heat and for this reason is admirably adapted to dry land farming. The seed is fed to cattle, horses, and sheep. Sows its main head in 100 days. Plant 4 to 5 pounds per acre.

Pkt. 10c; lb. 30c; 2 lbs. 50c; 5 lbs. $1.15; 10 lbs. $2.20, postpaid.

Not prepaid, 14 lbs. (peck) $1.10; 28 lbs. (1/2 bu.) $1.90; 56 lbs. (bu.) $3.50.

850 Shallu or Egyptian Wheat
Makes Nutritious Flour
A non-saccharine sorghum, producing very large yields of both grain and fodder. On account of its stolting habit, 3 to 6 stalks are produced from a single grain. An excellent food for all stock. Use 3 to 5 pounds in hills or for fodder sow 25 to 50 pounds per acre.

Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. $1.40; 10 lbs. $2.65, postpaid.

Not prepaid, 14 lbs. (peck) $1.10; 28 lbs. (1/2 bu.) $1.90; 56 lbs. (bu.) $3.50.

847 Dwarf Essex Rape
"Gives a Tremendous Yield and a Luxuriant Pasture"
This is the best early summer or autumn forage known: useful for sheep, pigs and cows with success and profit. Under favorable circumstances it is ready for pasture in six weeks from the time of sowing. It is grown exclusively for its leaves. Vape is a plant which loves cool weather, and thrives best in spring or autumn. The seed must be used at the rate of 3 pounds per acre in drills or 5 pounds per acre broadcast. Rape is an excel-

Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. $1.40; 10 lbs. $2.65, postpaid.

Not prepaid, 15 lbs. $2.10; 25 lbs. $3.25; 50 lbs. $6.25; 100 lbs. $12.00.

Forage for Summer growing, plant any of the varieties listed on page 64 or on this page 61.
Maule’s Field Corns

CULTURE—Plant when weather has settled and ground has become warm, in hills 4 feet apart each way, with each plant to remain in a hill, or sow in drills 4 feet apart, dropping one seed each foot in the drill; use 14 pounds of seed for an acre. For fodder or ensilage, sow thickly in drills, 3 to 4 feet apart, allowing 56 to 84 pounds per acre. With each variety, we give time of maturing under favorable weather conditions. All prices are subject to change without notice.

802 Maule’s Droughtproof Yellow Dent Corn

Resists Drought and Scorching Heat Better Than Any Other Variety 90 days

Droughtproof Yellow Dent produces handsome ears of good size and symmetrical shape with the largest lands and the smallest cob of any Yellow Dent corn. In fact, from 70 pounds of corn on the ear, 64 pounds of shelled corn and only 6 pounds of cobs were obtained, which cannot be equaled by any other corn in existence. Grains are deep wedge shaped and of the brightest color. Yield not excelled by any other early sort. Matures in 90 days.

We do not hesitate to say that, all points considered—its beautiful color, long yellow grains, large ears—taking all points combined, it is the finest corn ever introduced.

Pkt. 10c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid

Not prepaid, 14 lbs. (peck) $1.25;
28 lbs. (1/2 bu.) $2.25; 56 lbs. (bu.) $4.00

799 Maule’s Earliest of All Dent

The earliest dent corn in cultivation. It will mature in New York, any of the New England States, also Wisconsin, Michigan and Canada 75 days.

This variety of Dent Corn we believe to be the heaviest yielder of any extreme early corn yet introduced. It is a very hardy grower, and prolific yielder for so early a corn. The leafy stalks average 8 feet or more in height, often producing two nice ears measuring 8 to 12 inches in length, well filled with good sound kernels, of a dark red shade, tipped with pure white, making it a very handsome corn in appearance.

It matures in 75 days from date of planting and yields on an average of 150 bushels of corn per acre.

This new corn can be grown with success anywhere that Early Canada Flint Corn matures, as it is some 10 days earlier than Early Canada Flint Corn. We strongly recommend the planting of this dent corn in the northern climates or in any climate where a good dent corn is wanted.

Pkt. 10c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid

Not prepaid, 14 lbs. (peck) $1.25;
28 lbs. (1/2 bu.) $2.25; 56 lbs. (bu.) $4.00

801 Canada Early Yellow Flint

Invaluable Where Seasons Are Short. 85 days

The most popular of all Flint varieties for early planting. Matures in about 85 days. Ears are of medium length and have 8 rows of large, deep yellow grains, which make the extreme tip; cobs small. Stalks grow about 7 to 8 feet high and make an excellent fodder.

Pkt. 10c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid

Not prepaid, 14 lbs. (peck) $1.25;
28 lbs. (1/2 bu.) $2.25; 56 lbs. (bu.) $4.00

803 Hickory King White Dent

Makes a Splendid Quality of Cornmeal. 115 days

This has the largest grains with the smallest cob of any white corn. Of strong growth, the stalks take a firm hold in the ground and stand upright. It yields splendid crops on light soil and is the most productive white field corn. Ripens in about 115 days. It husks and shells early and produces much fodder. Excellent for silage.

Pkt. 10c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. $1.15;
10 lbs. $2.20, postpaid

Not prepaid, 14 lbs. (peck) $1.25;
28 lbs. (1/2 bu.) $2.25; 56 lbs. (bu.) $4.00

806 Improved Leaming Yellow Dent

Very Popular and Productive. 100 days

An early-lingued corn, averaging 10 inches in length, with 18 to 20 rows of wedge shaped, deep golden yellow grain. A good earliage or silo corn and extensively grown by stock feeders everywhere. Improved Leaming grows 8 to 10 feet in height. The ears are uniform with medium sized cob, and husks early. Very productive and an ideal Yellow Dent corn. It requires about 100 days to mature.

799 Maule’s Earliest of All Dent Corn

802 Maule’s Droughtproof Yellow Dent Corn
Maule's Earliest Yellow Dent Corn

The Earliest of All Yellow Dent Corn, Maturing in 80 to 85 Days
Will Mature Anywhere South of the Canadian Border

This exceptionally early yellow Dent Corn produces good size stalks averaging 5 to 6 feet in height, with large size ears 3 to 10 inches long having an average of 16 rows of kernels on each cob which is red in color. The ears set up well on the stalk 4 to 5 feet high, often producing 2 fine ears on each stalk. The ears are easily broken from the stalk making them easy to husk. The kernels are of a beautiful Orange Yellow shade, unlike any other Yellow Corn. A very heavy corn and a wonderful stalker, maturing in 80 to 85 days.

Maule's Improved Mastodon Yellow Dent

Largest Eared Yellow Dent. 100 days

It is the largest eared early yellow dent corn; the ears measuring 9 to 12 inches in length, with 16 to 18 rows of grains. Out-yields any other variety ripening at the same time.

It makes a rapid, strong and rank growth, attaining a height of 9 to 10 feet, often producing 2 large ears to a stalk. The foliage is large, making fine fodder.

We consider Improved Mastodon the variety to plant where an early, large eared corn is wanted that will mature in 90 to 100 days under favorable growing conditions. It makes fine looking shelled corn, showing two shades a golden yellow with a white cap.

Sow Maule’s Extra Lawn Grass Seed, offered on page 66, and your lawn will be the envy of your neighbors
891 Maule's Extra Lawn Grass Mixture

A Beautiful, Smooth, Low Growing Evergreen Grass for the Yard or Lawn

This mixture will insure a beautiful, compact, evergreen sod on any lawn, where the essential requirements of grass culture have been complied with. Its component parts are the grasses peculiarly adapted to lawns and yards, including choice selected strains of Kentucky Blue, etc., along with the best known creeping or sod forming sorts. We have included a little white clover in the mixture, regarding it as essential. Full provision is made for a succession of growth, so that there shall be no break in the richness of the verdure from spring until autumn, and experience proves that Maule's Extra Lawn Grass Mixture is now perfect. Nothing better can be purchased on the American market. For those that wish this mixture without white clover we can supply it at the same prices but in ordering please mention you want it without clover.

Grass seed can be sown any time between April and September.

884 Quick Results Lawn Mixture

A Rapid Growing Velvety Green Grass

This mixture is for producing an immediate greenward that will be followed by a good, permanent sod. It is especially to be recommended for late spring sowing, without a nurse crop. For early sowing we would rather use Maule's Extra Lawn Grass Mixture, but after May first (in the latitude of Philadelphia) we would much prefer this one. It will make rapid growth, and will be ready to cut two weeks in advance of any other mixture which we offer; nor is it lacking in permanence.

886 Maule's Steep Slope Mixture

A Lasting Grass for Embankments and Terraces

This is for banks, terraces, steep or exposed slopes and bare spots in general; in fact, for any place where dry, rocky conditions prevail. It will produce a sod that is absolutely proof against heat or drought, and that cannot be injured by cold. The grasses produce strong, spreading roots, thus preventing heavy rates of washing them out; will withstand exposure, thrive on shallow soils, and at the same time produces a rich, velvety green turf throughout the season.

If intended for renovating an old lawn, about half the above quantities are sufficient for the given spaces.

Maule's Three Permanent Pasture Mixtures

Best Adapted for Producing an Abundant Hay Crop or for Pasturage

It is true beyond all question that a mixture of grasses produces a better mowing field and subsequent permanent pasture than a mere combination of timothy and clovers. The former will last five times as long as the latter. Timothy "runs out" in a couple of years or so, while a good permanent pasture will last ten or even twenty years. This has been frequently and forcibly shown by experience. In preparing the permanent pasture grasses we employ mainly Kentucky Blue, Timothy, English or Perennial Rye, Italian Rye, Red Top or Herd, Orchard, Meadow Penscui or English Blue, Canadian Blue and Crested Dogstail.

Clovers: red, Alsike and White. We vary the proportions to suit the different soils.

Any of the above PERMANENT PASTURE Mixtures: 10 lb. $4.00; 2 lbs. 75c; 5 lbs. $1.75; 10 lbs. $3.25, postpaid.

Not prepaid, 15 lbs. $3.75; 25 lbs. $6.00; 50 lbs. $11.50; 100 lbs. $22.00

**Classification of Flowers**

Flowers are divided into three classes—Annuals, Biennials, and Perennials. Each class is described as follows:

**Hardy Annuals.** Easily raised and suitable for many purposes, excellent for cutting; invaluable for bedding, some for color, others for foliage effect. They will always be popular with those who want quick results and at least expenditure of time and money. Seed may be sown in the open ground or in hotbeds during March or April and the plants are set out in the open ground when the trees come into leaf. They may be ordered for your season and planted in the open ground during the winter. They will bloom and die the following season.

**Half Hardy Annuals.** Seeds should be sown in boxes in the house or in hotbeds during March or April and the plants are set out in the open ground when the trees come into leaf. They may be ordered for your season and planted in the open ground during the winter. They will bloom and die the following season.

**Hardy Biennials.** Sow seed as you would the hardy annuals. The plants will not bloom until the following year, after which they die.

**Half Hardy Biennials.** Seeds should be sown as you would the half hardy annuals. The plants require protection during the winter. They will bloom and die the following season.

**Hardy Perennials.** Seeds may be sown in early spring, or during July and August to produce plants that will flower the next season, and continue to bloom each succeeding year. Seed of some hardy perennials, if sown very early in the season, will produce plants that will flower the next season. It is unnecessary to give protection to these plants during the winter, but it will prove beneficial to the plants if a covering of leaves, litter or straw manure is provided. A hardy bed or border, when once established, requires practically no attention and will, if varieties have been properly selected, provide an abundance of flowers from early spring to late fall.

**Half Hardy Perennials.** Sow seed as you would the half hardy annuals. If plants are set out in the open ground they must be lifted before frost, potted up and taken in the house during the winter.

**Flowers for Different Purposes and Situations**

The lists below were compiled for your convenience so that you can readily select proper varieties for different purposes or locations. These lists are by no means complete, but merely suggestive. Each variety, through the catalog, is classified according to its height, growing habits and for what purposes they are best suited. Directions how to plant are printed on every package of Maule’s Flower Seeds.

On page 130 will be found a complete index of the botanical and common names of all flowers listed.
Abutilon (Flowering Maple)
Half Hardy Perennial
Handsome plants, growing 1 to 3 feet high. Will bloom during summer and autumn outdoors, any time in-doors.

Choicest Hybrids
Pretty, drooping, bell-shaped flowers on slender, thread-like stems. The colors are white, lemon, rose, scarlet, crimson, yellow, red, etc. Some of the flowers are large and drooping, others crinkled like crepe or shining like satin, and some so full as to be almost double. All sorts and colors mixed.

Pkt. 15c; 1/2 oz. 50c; 1 oz. 75c; 1/2 lb. 8.50

Acroclinium, Finest Mixed

Ageratum (Floss Flower)
Hardy Annual
A plant of the greatest beauty and value for garden or window, unexcelled for borders or bedding. Early and constant bloomer.

Hybrids
One of the so-called everlasting flowers, which, when cut and dried, is very valuable for winter bouquets. A graceful plant, growing about 15 inches high and bearing lovely rose and white flowers, which are very effective in beds or borders during the summer, but it is for their use in a dried state during the winter that they are extensively grown.

(Basket of Gold)
Maule's Antirrhinums or Snapdragons

Antirrhinums, in recent years, have become very popular. The long spikes are well adapted for cut-flowers. Few flowers have such a range of gorgeous colorings. They are very satisfactory for borders, bedding and pot culture, and are especially fitted for house decoration, especially during the winter, for which purpose the plants should be cut back in September. In some sections, if given protection during the winter, they will live over and furnish earlier and better blooms the second season.

Maximum, New Giant Flowered Antirrhinums

See inside front cover for colored illustrations

Far surpasses any strain of Antirrhinums yet introduced. Grows taller than the Tall Giant Flowering varieties. The flowers are the largest of all and closely placed on the spike. Indispensable for cutting, attractive in beds or borders.

927 APPLE BLOSSOM. Long, sturdy spikes with well-shaped flowers of a delicate apple-blossom pink with a yellow lip. A magnificent variety.

Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c

929 COPPER KING. A glowing copper-carmine shade with a bright golden-yellow lip; a most charming color contrast.

Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c

931 FIRE FLAME. Bright fiery red with a suffusion of deep orange and a rich scarlet lip. Large blooms, long spikes. One of the best.

Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c

932 GOLDEN QUEEN. Beautiful bright golden yellow. Show in the garden and popular for cutting.

Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c

933 THE ROSE. A pleasing shade of rose-pink and yellow, blending into a beautiful rose shade. The individual blooms are large, well formed and make a massive spike. An excellent variety for the garden and popular for cutting.

Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c

934 SNOWFLAKE. Rich creamy white with yellowish throat. A strong grower, producing innumerable long, perfect spikes of extra large flowers.

Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c

935 MAXIMUM CHOICEST MIXED COLORS. Considered one of the most distinct and desirable colors including the six here offered and others especially grown for this mixture; a wonderful display of attractive shades.

Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 70c; 1/4 oz. $1.25

50X11 Little Book of Perennials—Their Culture and Requirements.
In recent years we have paid particular attention to American grown Asters, for they have greatly increased in popularity of this flower. We know of no other flower so easily raised from seed, which combines so much beauty with grace and usefulness and are more satisfactory than Asters. They make a brilliant effect when grown in masses and furnish a constant supply of cut flowers. Every garden, large or small, should contain Asters.

**Giant Astermum Asters**

A beautiful strain of the Comet type, in size the peer of the grandest Chrysanthemum; hence the appropriate name of Astermum. A conspicuous and valuable border, bedding or pot plant, attaining a height of 18 to 24 inches. The flowers are large, with long, gracefully curled petals. Unrivaled for table decoration, and particularly appreciated as cut flowers, coming into bloom a little earlier than the Crego type.

- **983** Dark Blue
- **984** Lavender
- **985** Rose Pink
- **986** Shell Pink
- **987** Pure White
- **990** MIXED COLORS. All the above shades in mixture.

**1012 Crimson Giant Aster**

Of upright growth, with extra large, densely double flowers, on stems 15 to 18 inches long; in color a very rich blood-crimson. A brilliant bed or border plant, and very desirable for cut flowers.

Pkt. 10c; ½ oz. 30c; ¼ oz. 50c; ½ oz. 85c; oz. $1.50

**1112 Sensation Aster**

Dark rich garnet or ox-blood red. Grow 18 to 20 inches high, well branched and covered with perfect flowers until the advent of frost. Entirely distinct, being the reddest of all red Asters.

Pkt. 10c; ½ oz. 35c; ¼ oz. 60c; ½ oz. $1.00; oz. $1.75

**982 American Beauty Aster**

One of the most popular Asters of recent introduction. A most lovely shade of bright carmine rose, almost identical in color to the famous American Beauty Rose. The flowers are large, fully double, incurved, and borne on long, strong stems, making them especially desirable for cutting. Make a grand display in the garden.

Pkt. 10c; ½ oz. 45c; ¼ oz. 75c; ½ oz. $1.25; oz. $2.00

**1023 Aster, Maule's Earliest Blooming, Mixed Colors**

Maule's Earliest Blooming Asters

Blooms in July, two weeks earlier than most of the other types. Of open spreading habit, producing flowers of good size on strong stems, ½ feet high. A very distinct and valuable cut flower Aster for the home garden or florists.

- **1026** Crimson
- **1027** Lavender
- **1028** Flesh Pink

Maule's
Giant American Asters

(Continued)

Also offered on pages 72, 73 and 75.

The Aster is one of the most desirable of out-door summer flowers. They are easily grown, have splendid keeping qualities as a cut flower and may be had in almost every color except yellow. There are several types, some bloom early, some in mid-season, while others flower late. Is it any wonder then that the Aster finds a place in nearly every garden?

King Asters

Bear very large double flowers from August to October. Of branching habit and vigorous growth, stems long and stiff. In form the flower is distinct from any other variety, the narrow petals being more or less quilled.

1076 Moreton Pink Aster

Of the Giant Crego type, very double, with long twisted petals. The color is a deep cerise like the Paul Neyron Rose, the finest bright pink Aster of this type. An aristocratic flower greatly admired. The gracefully curled, wide petals are of unusually attractive appearance; combined with the exquisite coloring, it is needless to say, this is certain to be a very popular variety.

**Balsam**

*(Lady’s Slipper)*

**Hardy Annual**

An old and favorite, quick growing annual, producing large, brilliantly colored flowers. Blooms are borne along the stem, among the leaves; frequently the whole upper part of the plant is a mass of color. Height, 2 feet. Of the easiest culture, succeeding in any rich soil and sunny location.

**1127 MAULE’S DOUBLE SUPERB STRAIN, FINEST MIXED.**

Unexcelled for large size, perfect form, robust habit and diversity of rich and delicate colors. Flowers often 2 inches across, borne in wonderful profusion, and more uniformly double than any other strain. The habit of growth is bushy and branching. The range of color includes white, rose, yellow, buff, pomegranate, scarlet, crimson, purple, lilac and violet. We offer all the best colors in this mixture.

Pkt. 10c; ½ oz. 30c; ¼ oz. 50c; oz. $1.50

---

**1151 Blue Lace Flower**

*(Didiscus coerulescens)*

**Hardy Annual**

The umbel-shaped flowers, 2 to 3 inches across, are of a rare and desirable shade—the most beautiful clear coerulean blue. The form is similar to those of Queen’s Lace Handkerchief or Wild Carrot. One of the most popular flowers. Plants grow about two feet high and bear profusely from July till frost.

**Pkt. 10c; ½ oz. 32c; ¼ oz. 60c**

Hardy Perennial

One of the showiest of the yellow flowered hardy perennials. Culture easy; thrives anywhere.

1254 HARVEST MOON. Plants grow about 2 feet high, producing large, long-stemmed, rich yellow flowers in great profusion all summer, if the old flowers are removed as soon as they have finished blooming.

Pkt. 10c; ½ oz. 30c; ½ oz. 50c

1244 Briar

Crest Mammoth Rainbow Mixed.

For years we have prided ourselves that our collection of Coleus was unsurpassed. We have kept on breeding and selecting and now have succeeded in obtaining a strain of remarkably rich color combinations and fine shaped foliage which cannot be easily equalled. Highly ornamental as a pot plant, especially with its spikes of blue flowers in autumn.

Pkt. 25c; 2 pkts. 45c; ½ oz. 75c; ½ oz. $1.25

1245 LARGE LEAVED SUNSET SHADIES. A strain of Coleus remarkable for diversity and beauty of color, leaves and foliage combinations. Leaves sometimes attain a length of 10 or 12 inches and a width of 6 or 8 inches. Foliage very ornamental, being curled, serrated, cut or fringed in a most delicate way. The prevailing colors are indicated by the name, being a rich combination of all the tints in a gorgeous sunset. The handsomest foliage plants obtained so easily from seed, making fine specimen plants in two or three months.

Pkt. 30c; 3 pkts. 50c; ½ oz. 60c; ½ oz. 1.00

WM. HENRY MAULE, PHILADELPHIA, PA.
Maule’s Wonderful Cosmos

Hardy Annual
A tall, graceful, showy annual, enjoying the widest popularity. To 6 feet high. Bloom in mid-summer and autumn.

EXTRA EARLY MAMMOTH FLOWERING. The single flowers, borne in abundance on long and graceful stems, are 1 to 5 inches across. Seeds sown out-of-doors in early spring produce plants that will bloom in 60 to 70 days and continue until killed by frost. The earliest single flowering strain we know of.

1262 Cosmos, Single Early Pink
1263 Crimson
1264 White
1265 MIXED COLORS. The above colors in mixture.
Pkt. 10c; ¼ oz. 30c; ½ oz. 50c

EXTRA EARLY DOUBLE CRESTED COSMOS
A new strain, highly prized everywhere and especially recommended for localities north of New York as it perfects its beautiful double flowers in about 70 days from the time seed is sown.

1248 Crimson
1249 Pink
1250 White
Any of the above 3 colors:

Cynoglossum
(Chinese Forget-Me-Not)

1258 Cynoglossum, Pink Beauty

Hardy Annual
1253 AMABILE. Where a lovely, real blue flower is wanted, Cynoglossum should be planted. It is easily grown from seed, forming strong plants which average 20 inches in height. Throughout the summer months the intense blue forget-me-not-like flowers are freely produced. Sweet scented.
Pkt. 15c; ¼ oz. 40c; ½ oz. 70c

Cyclamen
(Alpine Violet)

1258 Cyclamen giganteum

Half Hardy Perennial
One of the choicest of all the greenhouse or window plants. Poliages rich and beautiful; flowers bird-like and fragrant. Colors white, pink, crimson, etc. Seed should be sown any time during the winter, spring or autumn in light soil, containing leaf mold and sand.

1267 Persicaria, Ch olee Mixed. All the best colors.

Dahlia, Half Hardy Perennial

Dahlia plants, from seed sown indoors in a shallow box in March or April and transplanted as soon as danger of frost is past, will bloom abundantly the first summer and give a magnificent display of bright colors late in the season. Seed offered below is saved from large flowering double Dahlias. As these flowers are hybrids, we cannot guarantee type; no two flowers will be exactly alike and some are likely to be single-flowering. Roots of any favorites may be saved, storing them in a cool, but frost-proof room during the winter.

1274 EXTRA CHOICE LARGE FLOWERING, DOUBLE MIXED. This seed is saved from choice specimens of the standard sorts, as well as the leading and best introductions that make their appearance each year. A choice mixture of Show, Cactus, Decorative, Peony and Pompon varieties. Some singles may be expected.

Pkt. 15¢; ½ oz. 60¢; ¼ oz. $1.00; ½ oz. $1.75; oz. $3.00

1275 DOUBLE CACTUS MIXED. Most popular Dahlia, grown, petals pointed (see illustration), distinct and elegant. Seed is saved from the most select and perfectly double blooms and many double flowers may be expected. Besides there is always the chance of some handsome new varieties being obtained.

Pkt. 20¢; ¼ oz. 75¢; ½ oz. $1.25; 1 oz. $2.00

1276 Double Extra Fine Mixed. A splendid assortment embracing many varieties.

Pkt. 10¢; ¼ oz. 50¢; ½ oz. 85¢; 1 oz. $1.50

1277 Decorative Mixed. Decorative Dahlias are being grown more and more every year and today are often given the preference to other varieties. They are an intermediate form between the so-called Show and Cactus types. The flowers vary somewhat in form, some having flat, broad petals, others reflexed, incurved and twisted ones. The petals are loosely arranged. All varieties are foremost cut flowers, bearing their large, well-developed blooms on long, stiff stems.

The seed we offer is saved from the finest specimens only and is sure to give excellent results.

Pkt. 20¢; ¼ oz. 70¢; ½ oz. $1.20; 1 oz. $2.10

1278 African Gold Daisy

Daisy, African Gold (Dimorphotheca)

_Daisy Annual_

Extremely showy; growing 12 to 15 inches high and bearing flowers 2½ inches in diameter, profusely the greater part of the summer and fall. Does best in a sunny situation.

1279 African Gold Daisy. Of flowering large, semi-double orange with a dark disc surrounded by a black zone.

Pkt. 10¢; ¼ oz. 25¢; ½ oz. 35¢; 1 oz. 55¢

1280 HYBRIDS MIXED. From the purest white through the various shades of yellow and orange to rich salmon.

Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢

Dianthus (Pinks)

Hardy Annual

Dianthus is one of the most popular and satisfactory of our summer flowers. They are easily grown and do well in almost any kind of soil. Grow 12 to 15 inches high and are literally covered with flowers of rich and varied colors.

1207 LUCIFER. Double Fringed Pink. Flowers of a beautiful orange scarlet color, nearly two inches across, on long stems, which makes it very valuable for cutting. Plant grows about 12 to 15 inches high. A fine borderer.

1204 SNOWBALL. Large, double, white flowers which are fine for cutting.

1206 ROYAL PINKS. Single flowering blossoms of a new shape, the petals being curled, waved and twisted, each covering half of another; beautifully fringed. The colors vary from white to intense red. We offer a fine mixture.

1296 MARVELOUS. The same as Dianthus Wonderfull or Fringed Pink. A remarkable, Japanese Pink. The plants grow from 12 to 15 inches high, and produce large flowers 3 to 4 inches across, on stiff, upright stems. From a third to a half of the flower seems to consist of graceful fringes, turned and twisted in all directions, giving an appearance both pretty and unique. A wide color range.

1304 HEDDEWIGI. Double flowers ranging from white to crimson, some laced or striped. All colors mixed.

1306 MOURNING CLOAK. A double Dianthus of so dark a maroon as to be almost black. Every petal faintly bordered with white.

1302 SALMON KING. The flowers are large, well doubled and nicely dentated, appearing in great numbers. The color is brilliant salmon rose.

1310 DIANTHUS plumarius, Double and Single Mixed

Hardy Perennial Dianthus

(Grass, Border, Feather, Clove, or Spice Pinks)

Plumarius. The large flowers are borne in a great variety of colors and markings, with fringed edges, and have an exquisite spicy fragrance. The plants form thick tufts of fine leaves which are of neat appearance, even when not in bloom. They are excellent, hardy plants.

1308 Double Mixed. Double and semi-double varieties.

1310 DOUBLE AND SINGLE MIXED. A mixture of single, double and semi-double Hardy varieties in many colors.

Nasturtiums
(Tropaeolum majus)

Hardy Annual

Nasturtiums prefer a good, well-drained soil; if soil is too rich they are inclined to produce more leaves and less flowers. The seed pods can be gathered while green for pickling. Besides the ordinary-leaved sorts we are offering the ivy-leaved, and the variegated-leaved varieties. Our mixtures are the finest obtainable anywhere.

Tall or Climbing Nasturtiums

Well adapted for ornamental purposes. They should have sticks or other supports, or may be trained over rockwork, trellises, fences, arbors, porches, or allowed to ramble over the ground where they will bloom profusely from early summer until frost. Grow 10 to 12 feet high.

1536 Tall Hybrids of Madame Gunter, Mixed

Foliage especially handsome. Vines thrifty and floriferous. The tints include red, salmon, rose, yellow, etc., in many combinations. Some flowers are self-colored (only one color); some mottled, blotched or margined.

Pkt. 10c; oz. 20c; 1/2 lb. 60c

1501 Tall Variegated or Silver Leaved, Mixed

The plant has a most striking aspect, as each leaf is variegated in a distinctly different degree with silver, yellow, white and green, so that no two are alike. The flowers embrace a fine assortment of colors.

Pkt. 10c; oz. 15c; 1/2 lb. 40c; 1 lb. 70c; 1 lb. $1.25

1535 Tall Climbing, Choice Mixed

Flowers of various colors in this mixture produce a grand display.

Pkt. 10c; oz. 15c; 1/2 lb. 40c; 1 lb. 70c; 1 lb. $1.25

1517 Lobbianum Climbing, Mixed Colors

A very good mixture of all colors known among Nasturtiums, from creamy white to the darkest red, which cannot fail to please.

Pkt. 5c; oz. 15c; 1/2 lb. 40c; 1 lb. 70c; 1 lb. $1.25

1541 Tall Ivy Leaved, Mixed Colors

Beautiful dark green foliage resembling that of the English Ivy. Flowers are of a distinct form, the petals being narrow and standing apart. A beautiful mixture of many colors.

Pkt. 10c; oz. 20c; 1/2 lb. 60c; 1 lb. $1.00; 1 lb. $1.75

Dwarf, Bedding or Tom Thumb Nasturtiums
(Tropaeolum majus nanum)

The Dwarf or Tom Thumb Nasturtiums are among our most popular plants. They resist heat and drought, grow vigorously and furnish an endless profusion of flowers a few weeks after sown until frost. The plants form little mounds one foot high and are very suitable for bedding purposes, borders or rockeries.

1543 Dwarf Ivy Leaved Mixed Colors

Beautiful dark green, ivy-like foliage; the mixture contains a remarkable range of colors on pretty, compact plants. Distinct and desirable.

Pkt. 10c; oz. 20c; 1/4 lb. 60c; 1/2 lb. $1.00; 1 lb. $1.75

1558 Dwarf or Tom Thumb, Finest Mixed

We have especially selected all the leading and best flowering varieties used in this mixture to produce the finest assortment of colors.

The planting schedule of flowers, on page 67, will be found helpful to our flower loving friends.
FOR many years, in fact ever since we have been in business, we have given particular attention to Pansy seeds. We assure you that our strains of Pansies are as good as can be found anywhere in the world. Pansies demand good soil, thriving best in a cool, moist but well drained position. Do not plant Pansies in the shade of a tree or building, as this causes straggly plants with very few blooms. Seeds sown in April or May will produce blooming plants the last of June, which will continue flowering until the end of the season. For early spring blooming sow seeds in August and give plants protection during the winter. We know that the results obtained from our Pansy seeds have been so remarkable that this is the reason the demand for this beautiful and popular flower increases with us so much every year.

1595 Giant Ruffled Masterpiece
The petals are waved or folded, large and round. Rich in dark velvety shades with, usually, a light colored edge or border. One of the prettiest of all varieties.
Pkt. 15c; 1/16 oz. 35c; 1/4 oz. 60c; 1/2 oz. $1.00; 1 oz. $1.50; 2 oz. $3.50

1600 Maule's Giant Phenomenal
After years of close acquaintance with Phenomenal Pansy, since we introduced it to the American public, we again cordially commend it. It is as unique as it is large and beautiful. Thousands of our friends now know and admire them. The strain originated in France, consisting of the largest, choicest, and most "phenomenal" specimens that could be selected. Phenomenal Pansy exhibits those captivating wine red shades that are so rare among flowers.
Pkt. 20c; 1/16 oz. 60c; 1/4 oz. $1.00; 1/2 oz. $1.75; 1 oz. $3.00

1598 Giant Madame Perret
Comprised of all shades of wine red, from the light red, white edged bright red to the deep purple of splendid magnificence. Every blossom exhibits the soft wine-red color in varying degree, either faint or intense.
Pkt. 10c; 1/16 oz. 50c; 1/4 oz. 95c; 1/2 oz. 1.50; 1 oz. 2.50

See opposite page for additional varieties of Maule's Pansies
1614 Maule's Prize Mixed Giant Pansies

A carefully prepared mixture of all the richest, most exquisite, and largest Pansies known, in a full range of colors.

Look for blossoms 2½ to 3½ inches across, of perfect texture, embracing an endless variety of colors. Year by year we watch the production of American and European specialists and secure everything truly meritorious for incorporation into our Prize Mixture.

Pansy seed is a very high priced commodity, and it is next to impossible for the average flower lover to buy all the new sorts on the market. All the types that are really desirable will be found in Maule's Prize Mixture, which is largely grown for exhibition.

1631 GIANT SNOW QUEEN.

One packet each of the above 5 most desirable Pansies (value 60c) ................ for 50c

1606 Bugnot's Giant Superb Blotched

The predominating colors to be found in these Giant Pansies are shades of red, bronze, reddish cardinal and reddish brown. Petals handsomely blotched and bordered with light colors.

Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. $1.15; 1 oz. $2.00

Maule's Bedding Pansies

Valuable for bedding or borders where a mass of color is wanted. Flowers are not of the largest type, but bloom profusely throughout the season.

1615 Orchid-Flowered

The ground color is mostly light, while the petals are marked with large brown or golden blotches. The colorings include shades of pink, rose, orange, lilac and chamois.

Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. $1.15; 1 oz. $2.00

1633 Choice Mixed

A mixture of all varieties, giving a remarkably fine display of colors. The flowers are not of the largest type, but plants are of strong, sturdy growth and prolific bloomers.

1634 Extra Fine Mixed

All the costliest European varieties of the finest type are included in this grand mixture. The size of the flower has been somewhat sacrificed to obtain the most gorgeous colors.

Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 65¢; 1/2 oz. $1.10; oz. $1.80

1630 Early Flowering Hardy, Mixed Colors

These Pansies are of great value, owing to the extreme hardiness of the plants and their extraordinary early blooming time, producing their flowers at least 4 weeks earlier than any other variety of Pansies. Full grown plants will winter over in the open ground with but a slight protection of leaves, litter, etc., in very cold latitudes, and will begin flowering, so-to-say, under the snow in February and March, when other pansies are only forming buds. These delicately perfumed Pansies are of good size and will continue to bloom in great profusion until late summer.

Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 75¢; 1/2 oz. $1.25; 1 oz. $2.25; oz. $4.00

Violas or Tufted Pansies are offered on page 105; other Giant Pansies are listed on opposite page
Maule's Showy Petunias

Hardy Annual
No annual flower is more widely used than the Petunia. It begins to bloom early and lasts the whole season, until killed by frost. Petunias succeed best in rich soil and a sunny location. While most varieties are of the trailing habit, some are quite erect and of bushy growth.

1647 HOWARD'S STAR. Flowers are 2 to 2¾ inches in diameter, of fine texture, with more or less veining. Ground color a crimson maroon. In the center of many flowers is a five-rayed star of light blush pink or white, while some are beautifully striped or blotched. Height of plant, 1½ to 2 feet.

Pkt. 10c; ½ oz. $1.00
½ oz. $1.50

1663 BURPEE'S BLUE. This is an outstanding new Petunia altogether different from other so-called "Blues" introduced heretofore. Burpee's Blue is a rich, clear ultramarine-blue, free from any purplish cast or pink tint. The flowers measure 2½ to 3½ inches in diameter. They are borne with the greatest freedom on strong and vigorous plants.

Burpee's New Blue Petunia is a wonderful variety for bedding or for growing in window or porch boxes: a unique color, greatly admired.

Pkt. 20c; ½ oz. $1.00
½ oz. $1.75; ¼ oz. $3.00

1648 BEST HYBRIDS MIXED. A fine mixture of the best single Petunias, including striped, blotched and mottled sorts. Pkt. 10c; ½ oz. 45c; ¼ oz. 90c; ½ oz. $1.50; oz. $2.50

1649 Single Large Flowered. Very large flowers 3 to 4 inches across, blotched and veined in the most grotesque and beautiful combinations, but not fringed. Mixed colors.

Pkt. 25c; 2 pkts. 45c; 5 pkts. $1.00

4157 Bedding Petunia Collection

Maule's Petunias, Continued

Other varieties are listed on opposite page

1638 SELECTED RUFDLED GIANTS. Considered by many the prettiest Petunia in the world, not only on account of its great size, but because of its rich colors and markings and its fringed or notched petals. The blooms are extraordinarily frilled on the edges. Some flowers are 6 inches across. The tints are rich and varied, curiously veined and penciled.
Pkt. 50c; 2 pkts. 45c; 5 pkts. $1.00

1645 Single Fringed Varieties. Enormous flowers of striking beauty with ruffled or fringed edges. This strain includes many fine, exceedingly rich colors.
Pkt. 25c; 2 pkts. 45c; 5 pkts. $1.00

1636 DOUBLE EXTRA LARGE FLOWERING, MIXED. Double Extra Large Flowering Petunias are without doubt the finest ever offered to the public. For years we have made a specialty of this strain, constantly improving it by selection. The seed which we save from our double flowering Petunias produces a high percentage of double flowers, the remainder being choice, large single flowers of extra fine quality. The weaker seedlings should be carefully saved as they usually produce the finest double flowers.
Pkt. 30c; 2 pkts. 50c; 5 pkts. $1.00

1656 Phlox Drummondii, Large Flowering, Finest Mixed

Phlox Drummondii (Texan Pride)

Hardy Annual

Phloxes are unrivaled among garden flowers in brilliancy of bloom. They are strong growing, free-blooming plants with pretty foliage, and should have a place in every garden. Being one of the most satisfactory plants which can readily be grown from seed, we recommend this lovely annual where a quick growth and an early supply of cut flowers are wanted. The fine blooms, produced in large trusses, come in many artistic shades and furnish a wonderful garden display. 12 to 15 inches high.

1653 Phlox, Hardy Perennial Mixed Colors

Hardy Perennial Phlox

In recent years beds and clumps of these beautiful Phloxes have become more popular everywhere. Plants grow 2 to 3 feet high and bear flowers of many colors. One of the most satisfactory perennials.

1653 ALL COLORS MIXED. This seed is saved from a very fine collection of all colors, and gives excellent results. Plants are perfectly hardy, need no protection, and will flourish in any soil. Seed germinates slowly and irregularly.

Pkt. 25c; ½ oz. 60c; ¼ oz. $1.00; ½ oz. $1.75; oz. $3.00

1677 Portulaca, Double Mixed

Portulaca

1710 Purple Feather Grass

Tender Perennial

A beautiful and well known ornamental house or border plant of easy culture. As useful for hald or table adornment as a palm, and having the advantage of rapid growth. The graceful, narrow, recurving leaves are over-topped by elegant feathery plumes a foot long. Heads borne from July until frost, the whole plant being eventually veiled in a purple cloud.

Pkt. 10c; ½ oz. 40c; ⅛ oz. 70c

Why not use Annuals in your Rock-Garden?

We suggest Abronia, Ageratum, Alyssum, Leptosiphon, Nemophila, Portulaca and Verbena in addition to Alpine and perennial plants.
POPPY
Hardy Annual
Showy, and easily cultivated. A favorite everywhere. Flowers of various sizes, shapes and colors, both single and double. Always conspicuous and brilliant.

1673 DOUBLE CARNATION, MIXED COLORS. Produces large, carnation-like flowers. Most excellent for massing or borders, flowers being very double. One of the most beautiful varieties of which we offer a very fine range of colors in our mixture. Pkt. 10c; 1/2 oz. 25c; oz. 30c

1677 Maule's Hybrid Poppies
The distinctive features of these new poppies are their size, their rare coloring and color combinations, and the pleasing crinkly appearance of their petals. Their double and semi-double flowers run from 2 to 2½ inches in diameter, in pure white, pink, rose, salmon, salmon-orange, scarlet, and crimson; also in lovely combinations of broad, and narrow-banded white-edged scarlet and pink. We can supply this poppy in mixed colors only.

Ricinus (Castor Oil Beans)

Hardy Annual

A stately, strong-growing and highly ornamental tree-like annual plant; 6 to 14 feet high, very effective as a foliage plant. Highly desirable for centers of beds or for backgrounds. By planting Ricinus beans on the borders of gardens, moles may be kept away, as they will leave as soon as they get a scent of the plant.

1713 RED SPIRE. Rich bronzy-green leaves with prominent red ribs and veins. Plant grows 6 feet high and produces numerous flower-spikes or seed-pods of a brilliant rosy-crimson. Most effective and ornamental.

Pkt. 10c; oz. 30c; ½ lb. 75c

1714 ZANZIBARENSIS. The tallest growing Ricinus, 10 to 14 feet high. Variously colored leaves, 1 to 2 feet across. Use as an ornamental shade plant.

Pkt. 10c; oz. 25c; ½ lb. 70c

1715 Mixed. All the best plain and fancy varieties in a grand mixture. Pkt. 10c; oz. 20c; ½ lb. 60c

Salvia (Scarlet Sage)

Hardy Annual

Salvias are favorite bedding plants bearing long spikes of flowers profusely during the whole summer until frost; also grown as pot plants during the winter.

1722 DROOPING SPIKES. The very best Salvia obtainable. The flowers are produced so abundantly as to bend the branches and give them a trailing habit, hence the name of Drooping Spikes. It is a magnificent bloomer; desirable for lawn or garden whether planted in solid beds or in borders. Height, 24 to 36 inches.

Pkt. 15c; ¼ oz. 60c; ½ oz. $1.00; 1 oz. $1.75; oz. $3.00

1724 AMERICA OR GLOBE OF FIRE. The earliest, finest, and most continuous blooming of all Salvias, being of uniform growth not exceeding 15 inches in height, with spikes of brilliant scarlet flowers borne well above the foliage. Particularly suited for pots, beds or borders.

Pkt. 15c; ¼ oz. 50c; ½ oz. 95c; 1 oz. $1.50; 1½ oz. $3.25

Saponaria, vaccaria

Hardy Annual

Pkt. 10c; ½ oz. 20c; oz. 30c

Saponaria

1733 Mixed, All Sorts. We have received so many requests for Saponaria seeds mixed, that we are offering a mixture of the scarlet, carnation, salmon and purple varieties.

Pkt. 15c; ¼ oz. 50c; ½ oz. 85c; 1 oz. $1.50; 1½ oz. $3.00

1725 BONFIRE. One of the finest for bedding. Compact, oval bushes, 2 feet high, with long spikes of scarlet flowers standing clear above the foliage, which completely cover the plant. A very popular variety for beds and borders where a dwarfer red variety than Drooping Spikes is required. Very extensively grown.

Pkt. 10c; ¼ oz. 50c; ½ oz. $1.50; oz. $2.50

1727 FARINACEA. (The Silver Sage.) Tall silvery lavender or blue spikes rise in great numbers above the foliage. A handsome bedding plant for groups, borders or masses. With a slight covering during severe freezing this variety will live over winter in many localities, but it is best to treat it as an annual.

Pkt. 15c; ½ oz. 50c; ¼ oz. 85c

1726 BONFIRE. One of the finest for bedding. Compact, oval bushes, 2 feet high, with long spikes of scarlet flowers standing clear above the foliage, which completely cover the plant. Summer Flowering Giant Spencer Sweet Peas

Two Beautiful New Summer Flowering Sweet Peas for 1929

1845 Ambassador

Ambassador is an artistic combination of size and form of flower and beauty of color. The large, well waved flowers are borne in fours on very long stems, produced on vigorous vines. The color is a clear deep rose-pink on a background of deep primrose. At the base of the standard and wings as well as on the margins, the color is decidedly lighter, which adds considerably to its loveliness. Pkt. (25 seeds) 25c.

1900 Ruffled Rose

Ruffled Rose is another Giant of the Ruffled class and a worthy companion to Fluffy Ruffles—a new type introduced last year.

The color of this remarkable new creation is a rich shade of rose overlaid with a salmon sheen, which makes it very showy. The flowers are of enormous size and heavy substance; they are borne in great profusion on long, stiff stems. A few sprays only are required to make up a nice bunch.

Ruffled Rose and Fluffy Ruffles have become leading varieties with the florists and therefore are in great demand. Pkt. (25 seeds) 25c.

1846 Fluffy Ruffles

An Outstanding Sweet Pea Introduced in 1928

A great big flower; vigorous and free blooming—the first of the Ruffled Sweet Peas. A new type, duplexed and frilled, with long-stemmed, well-proportioned sprays of four almost globular flowers. No other Sweet Pea exhibits such consistent doubling and ruffling of its petals. Twelve sprays make a more massive bunch than eighteen sprays of an ordinary Spencer Sweet Pea.

A lovely rich rose-pink, a gleam of soft salmon, and a bright creamy undertone blend into a harmonious cream-pink shade that must be seen to be appreciated. A flower of exquisite texture and sweet fragrance.

Pkt. 20c; ½ oz. 75c; oz. $1.40; ¼ lb. $4.25

12 of the Best Giant Spencer Sweet Peas

1853 CONSTANCE HINTON. The best black-seeded, white-flowered Spencer; flowers large and of true form.

Pkt. 10c; ½ oz. 20c; oz. 20c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1854 COMMANDER GODSALL. An attractive shade of deep violet-blue. The flowers are large, of heavy substance and beautifully waved.

Pkt. 10c; ¼ oz. 20c; oz. 35c; ¼ lb. 90c; ½ lb. $1.65; 1 lb. $3.00

1858 CRIMSON KING. Surpasses by far all others of its class. It is a rich true crimson. Pkt. 10c; ¼ oz. 25c; oz. 35c; ¼ lb. 90c; ½ lb. $1.65; 1 lb. $3.00

1861 FORDHOOK BLUE. An outstanding variety of rich azure blue. The large, attractive flowers are produced on sturdy stems. Free-blooming.

Pkt. 15c; ½ oz. 25c; oz. 40c; ¼ lb. $1.35; ½ lb. $2.50; 1 lb. $4.50

1860 HAWLMARK SALMON-PINK. A rich deep pink, attractively tinted with salmon and orange.

Pkt. 10c; ¼ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1884 MATCHLESS. A new cream variety with frilled and waved standard and wings. Blooms are extra large; usually borne in fours.

Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1925 MRS. C. P. TOMLIN. Scarlet with just a touch of fiery red. Remarkable for its richness and substance. Four-flowered sprays of the largest size are produced in abundance on long stems.

Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1903 ORCHID. IMPROVED. Beautiful deep lavender throughout, slightly suffused pink on standard and wings.

Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1921 PICTURE. The largest flowered of all. A blending of cream and pink shades having a deeper flush on the wings.

Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1905 ROYAL SCOT. A deep cerise closely approaching a true scarlet. Flowers of large size, heavy texture, and beautiful form. The plant is of vigorous growth and produces an abundance of long-stemmed blooms.

Pkt. 10c; ¼ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1924 TANGERINE. Deep orange, almost the color of a tangerine orange. Large flowers.

Pkt. 10c; ¼ oz. 20c; oz. 30c; ¼ lb. 75c; ½ lb. $1.40; 1 lb. $2.50

1912 WARRIOR. A rich reddish maroon. One of the best dark colors.

Summer-flowering Sweet Peas are concluded on the next page.
1847 Adorable

A wonderful shade of clear salmon-cerise on a cream ground, with just a suspicion of bronze around the edge of the standard. This, together with the bronzy suffused reverse, adds a glistening sheen to a bunch of Adorable.
Pkt. 20c; ½ oz. 75c; oz. $1.40; ¼ lb. $4.25

1848 Happiness

A very pleasing variety of coral-pink on cream, with the wings slightly deeper, shading to rose pink. The lemon keel and the lemon blush at the base of the standard add considerably to its beauty.
Pkt. 20c; ½ oz. 75c; oz. $1.40; ¼ lb. $4.25

1849 Brilliant Rose

Brilliant Rose is a glowing bright tyrian rose with a scintillating suffusion of bronze rose. Dated from all others and more desirable than any in its color class. Large, beautiful flowers borne on long stems.
Pkt. 20c; ½ oz. 75c; oz. $1.40; ¼ lb. $4.25

1855 Delightful

A rich terra-cotta cerise suffused orange or scarlet red. A color never before produced—the most appealing, in its glowing beauty, of all the richer toned varieties.
Pkt. 20c; ½ oz. 50c; oz. 90c; ¼ lb. $3.00

1857 Royal Blue

A true Royal Blue, but full of life and brilliancy instead of dull and uninteresting. Undoubtedly the brightest of all sweet peas dark blues. A flower of great substance and enchanting beauty, extremely prolific in flower.
Pkt. 20c; ½ oz. 50c; oz. 90c; ¼ lb. $3.00

All Maule Seeds teem with Vigorous, Abundant Life; Always they are Tested and Guaranteed
Plants are easily and quickly grown from Maule's bulbs and roots. With but little care excellent results may be obtained. A generous supply of bulbs, roots and plants may be obtained at a very small outlay, for the first cost is practically the only expense.

Important: Many of our customers order bulbs and roots during the winter months to plant in pots for house culture or to start into growth so as to have them ready to set out outdoors when conditions are favorable. We will, therefore, on receipt of all orders, send such bulbs and roots as may be needed indoors or which, if not wanted for immediate planting, can be safely kept until the proper outdoor planting time.

Perennial Plants and Roots, such as Peonies, Phlox, Iris, etc., will be sent direct from our nursery at your proper outdoor planting time. All Bulb, Root and Plant orders will be handled in the above-mentioned manner unless your instructions to the contrary are clearly specified at time of ordering.

Maule's Large Flowering Cannas

For bedding purposes, Cannas stand at the head of the list. No more satisfactory plant could be found; they succeed in all parts of the country, in any kind of soil, but will, of course, do better in rich soil, and if freely watered at all times. In recent years, Cannas have been constantly improved. The newer types have flowers six to eight inches across, in great clusters of varied and rich colors, borne continuously all summer. The ultimate height given for each Canna may vary with climate and care. Not hardy.

Maule’s Prize-Winning Dahlias

Field-Grown Tubers of Proper Planting Size

Decorative Dahlias

The flowers are full to the center throughout the season. They are thick but not ball-shaped, with broad, flat, somewhat loosely arranged petals. The points are broad or rounded; the tips may be straight or turned down and in some varieties the margins are slightly rolled back. Within recent years this type of Dahlia has been introduced with quite a number of outstanding novelties. Whether used for garden display or for cut flowers they always give the greatest satisfaction.

76B06 Alex. Walde The large, well-formed flowers are carried on long stems. The color of the foliage overlaid with pale salmon-pink. Profuse. Of sturdy growth. 60c each; 3 for $1.00; 6 for $3.75, postpaid.

76B16 A. R. Johnson Large flowers of a rich golden-apricot shade. They are substantial and borne on long stems of good upright growth. 75c each; 3 for $2.70; 6 for $5.25, postpaid.

76B40 Champagne A variety that has quickly become very well known because of its many outstanding features. The color is distinct and most appealing. It is a lovely shade of dull gold with a hue of iridescent chamois. The flowers are carried on long stems. $1.00 each; 3 for $2.70; 6 for $5.25, postpaid.

76B37 Chas. A. Stratton Of all Dahlias in the bronze color this is undoubtedly one of the finest. The truly gigantic flowers often measuring 10 inches in diameter, are carried on strong stems 3-5 feet in length. The color is bronze pale gold shaded and blended with old rose; a real autumn shade. $1.25 each; 3 for $3.75; 6 for $6.00, postpaid.

76B52 Elinor Vanderveer A new exquisite variety with flowers of great size. The color of the oil-formed flowers is a glowing satiny rose-pink. The flowers are carried on long stiff stems. $1.45 each; 3 for $4.00; 6 for $7.00, postpaid.

76B54 Etendard de Lyon Brilliant royal purple. The color is deep and rich and is carried on long, broad and curled petals and are held erect by strong, straight stems. A rich colored variety that always attracts attention. 35c each; 3 for $1.00; 6 for $1.50, postpaid.

76B60 Fordhook Charm Truly a charming flower of a distinctive shade of coral-red suffused with bronze and shaded with suspicion of salmon. The reverse of the petals show an old rose cast. $1.00 each; 3 for $2.70; 6 for $5.25, postpaid.

76B66 Insulinde Another one of those lovely autumn shades combination of buff, and golden orange, into a scintillating mass of color. The reverse of the petals is shaded golden apricot. A great flower. $1.45 each; 3 for $3.75; 6 for $6.25, postpaid.

76B70 Jean Kerr The most valuable of all white Decorative Dahlias. The blooms are carried on long, strong stems well above the foliage. Blooms early and freely until killed by frost. 35c each; 3 for $1.00; 6 for $1.50, postpaid.

76B73 Jersey's Beacon One of the most appealing reds, a lighter reverse, giving a two-toned effect. The blooms are of enormous size, carried on fine strong stems. Of strong vigorous growth and very early. $1.00 each; 3 for $2.70; 6 for $5.50, postpaid.

76B74 Jersey's Beauty This is considered the finest pink Dahlia ever introduced. The color is a lovely rose-pink. The blooms are large, well rounded, and of artistic proportions. Jersey's Beauty has created a sensation. Wherever exhibited it has received the highest honors. The firm and massive blooms are borne profusely on strong, heavy stems. $1.00 each; 3 for $2.70; 6 for $5.25, postpaid.

77B00 Millionaire A flower of very large size and perfect form. The color is a pleasing shade of bright lavender shading to white. Millionaire is of strong, robust growth and produces an abundance of fine flowers.

77B04 Mina Burgle The finest scarlet Dahlia for cutting. A glowing, most brilliant scarlet. Large flowers of perfect formation are produced abundantly on long, wiry stems.

77B24 Mrs. I. De Ver Warner Artistic, well shaped flowers of truly immense size. The color is a superb shade of mauve-pink. Perhaps no other Dahlia has found as many lovers as this outstanding Decorative variety. It is a really fine flower.

77B28 Mrs. J. Harrison Dick A foremost Decorative Dahlia which is well known as it has been exhibited widely. The flowers are clear bright yellow, showing a soft touch of pink on the outer petals. Blooms are well rounded and carried on long stems.

77B52 Queen Mary Lovey cerise-pink with a silvery beam. The flowers are large, well shaped, and of good substance. The gorgeous long stemmed flowers are much in demand for bouquets.

77B68 Rosa Nell A clear, bright rose of elegant form and large size. It is a great favorite for cutting because the mammoth blooms are long stemmed. 60c each; 3 for $1.00; 6 for $2.00, postpaid.

77B74 Sunnybrook Here is a particularly striking variety with rich butter-yellow flowers of impressive size and exceptionally fine form. $5.50 each; 3 for $15.00; 6 for $27.00, postpaid.

77B75 Trentonian A blend of old gold, amber, and copper-penny bronze—the color of an Indian's skin. $1.25 each; 3 for $3.50; 6 for $6.00, postpaid.

77B84 Wizard of Oz The combination of amber, pink, and salmon represents a lovely autumn tint. This is a flower which embodies size, good form, length of stem, and free-blooming habit. Wizard of Oz has for years ranked as one of the most desirable Dahlias for both exhibition and garden use.

$1.00 each; 3 for $2.70; 6 for $5.25, postpaid.

Maule’s Select Gladiolus

(First Size Bulbs)

The Gladiolus is one of the most popular and beautiful of the summer flowering bulbs with tall spikes of flowers, some 2 feet or more in height. Of almost every desirable color, blotched and spotted in the most curious manner. They have absolutely no insect enemies and no diseases, and, best of all, they will grow and bloom in any soil. We have never known any one to fail with them. Try them and be convinced.

From a large list of named Gladiolus we have selected 32 varieties which we consider the best as to color, form and size of flowers. We offer 20 varieties on this page and 12 on the next one. Many prefer named sorts, so as to have the colors they most desire. Mixtures of all colors in the large-flowered Gladiolus, as well as the Primulina type, are offered on next page.

72B58 Nymphaea Odorata or Water Lily Roots

(The Well-Known Native White Pond Lily)

Roots are taken from our ponds as early in the spring as it is possible to get them out. Place your order early, and we will send them when ready, usually in the month of May. Sometimes at an earlier, depending on weather conditions.

Flowers pure white and fragrant; widely popular. It is only necessary to set the roots in the mud, where the water is sluggish in the stream, after which the plant will require no further attention. Perfectly hardy, living in ponds or streams all winter. Where a stream or pond is not easy of access, roots can be grown in a tub, removing the tub to the cellar over winter.

40c each; 3 for $1.00; 6 for $1.85; $3.50 per doz., postpaid

74B99 Surprise Collection

75 Bulbs for Only $2.00

All Properly Labelled

For Delivery After May 1

The supply of some of our Bulbs is exhausted before our selling season is over, while large quantities of other varieties are left on hand, for it is practically impossible to sell out all.

Rather than replant these “leftover” bulbs, we will put them up in “Surprise Collections,” 75 bulbs in each collection, and offer the collection for only $2.00, postpaid.

These collections will be entirely of our selection, from varieties of which we have a surplus. All bulbs will be of first-class quality, properly labelled. Orders will be filled in rotation as received, after May 1. The first orders will get the best selection, although all orders will receive twice the catalog value.

It is to your advantage to order this collection Early. At such a low price, no collection of surplus bulbs will be made up for less than $3.00.

We guarantee everything we sell to the full amount of the purchase price.

Hardy Perennial Phlox

Well developed plants sent direct from our Nursery

Perennial Phlox succeeds in almost any soil, but, of course, extra care is required in preparing and enriching the soil and in fostering plants in dry weather. If the first flowers of bloom which usually appear in July and August, are removed as soon as they appear, the plants will produce a second supply of flowers, continuing the display until late in the autumn. They are perfectly hardy, becoming larger and more beautiful each year.

73N34 Beacon

Truly magnificent flowers of a brilliant cherry-red shade are produced in succession of immense size. Easily grown and exceptionally showy.

73N42 Europa

A strong grower, producing a mass of large clusters of flowers. The blooms are white, with a fine light crimson eye in the center.

73N45 Ferdinand Cortez

A rich crimson shade with a brilliance most appealing when seen in the bright sun. Vigorous grower with

73N32 B. Compte

A very brilliant and showy variety of good hardy, most profuse blooming. The individual flowers are large and combine into magnificent trusses of a brilliant French purple shade. This color is unusually bright and never fails to receive favorable attention. It looks best if planted in combination with some white variety.

73N48 Mrs. William Jenkins

Large, well-rounded flower-heads composed of mammoth size, snow-white blooms. By far the best of all white varieties.

73N55 Special French

A free-blooming variety which always attracts attention because of its beautiful, large, glowing pink flowers. The plants are of robust growth and produce trusses of mammoth size throughout the blooming season.

73N54 Rynstrom

The individual flowers are very large and they combine into heavy, massive trusses of a bright rose-pink shade. An exceptionally strong grower, free blooming, and of showy habit.

73N56 Thor

A fine combination of bright and silky salmon-pink with a deep crimson eye in the center. The color contrast is very outstanding and pleasing to the eye. Thor is worth growing because of its excellent color and outstanding habit of growth.

Maule's Hardy Perennial Plants

**Platycodon** (Dwarf Japanese Bell Flower)

**Platycodon Mariesii, Blue**

A low growing, bushy plant, producing bell-shaped flowers of a lovely violet blue, almost rivaling the splendid Jack- manic Clematis. Perfectly hardy, producing handsome branching spikes 1 to 2 feet high, which furnish large, showy flowers continuously from July until frost.

**Platycodon Purpurea**

(Giant Purple Cone-flower)

Peculiar reddish-purple flowers, with a very large, brown cone-shaped center. Blooms from July to October, 2 feet high. Perfectly hardy.

30c each; 3 for 75c; 6 for $1.30; $2.50 per doz., postpaid

**Rudbeckia, Golden Glow**

Perfectly hardy. Attains a height of about 6 feet, and produces from July till September a wealth of double golden-yellow flowers 2 to 3 inches across. Fine for cutting. Well known.

30c each; 3 for 75c; 6 for $1.25; $2.25 per doz., postpaid

**Tritoma Pfizeri**

(One of the handsomest blue-flowering plants. Perfectly hardy. Spikes completely stuffed with beautiful blue flowers from July to September. Height 2 feet; fine for cutting. 30c each; 3 for $1.00; 6 for $1.65; $3.50 per doz., postpaid)

**Shasta Daisy**

The flowers, averaging 4 inches in diameter, are borne on long, stiff stems from July on for several months. The pure glistening white petals or rays are in wonderful contrast to the yellow center.

30c each; 3 for 75c; 6 for $1.30; $2.50 per doz., postpaid

**Sweet William**

Too well known to require description. An old-fashioned favorite loved by every flower grower. Flowers are single and double of various colors and markings.

30c each; 3 for 75c; 6 for $1.25; $2.25 per doz., postpaid

**Valeriana Coccinea**

(Hardy Heliotrope)

A truly hardy perennial plant producing large heads of old-rose flowers on stems 3 feet high. Blooms from June to August.

30c each; 3 for 75c; 6 for $1.30; $2.50 per doz., postpaid

**Filamentosa (Adam's Needle)**

Among hardy plants there is nothing more effective and striking for isolated positions on the lawn or on dry banks, where few other plants thrive. Its broad, sword-like evergreen foliage and immense branching spikes of drooping, creamy white flowers rising to a height of 6 feet, render it a bold and handsome subject. After once established it will increase in size from year to year, making a huge plant of truly tropical appearance.

50c each; 3 for $1.25; 6 for $2.25; $4.00 per doz., postpaid

**Viola Filamentosa**

A valuable hardy perennial plant either for the border or rockery, with tufts of leathery leaves and immense candelabralike heads, frequently 1 1/2 feet high and 2 feet across, of purplish-blue minute flowers during July and August. These, if cut and dried, last in perfect condition for months.

30c each; 3 for 75c; 6 for $1.30; $2.50 per doz., postpaid

**Veronica Subsessilis**

Longifolia Subsessilis (Japanese Speedwell)

One of the handsomest blue-flowering plants. Perfectly hardy. Spikes completely stuffed with beautiful blue flowers from July to September. Height 2 feet; fine for cutting. 30c each; 3 for $1.00; 6 for $1.65; $3.50 per doz., postpaid

**Viola, Jersey Gem**

(Tufted Pansy)

Of compact, sturdy growth, blooming practically without a break from May to the end of the season. Pure violet flowers borne on stems about six inches long. Splendid for cutting as well as for the border. Will succeed in any good garden soil in a sunny position.

40c each; 3 for 95c; 6 for $1.65; $3.50 per doz., postpaid

**Statice Latifolia**

(Great Sea Lavender)

A valuable hardy perennial plant either for the border or rockery, with tufts of leathery leaves and immense candelabralike heads, frequently 1 1/2 feet high and 2 feet across, of purplish-blue minute flowers during July and August. These, if cut and dried, last in perfect condition for months.

Maule’s Hardy
Everblooming Roses

Widely known as “Monthly Roses”

The so-called Everblooming Roses are the Hybrid Teas and the Teas. They do not bloom all the time, but if kept pruned and cultivated, one crop of flowers succeeds another at brief intervals throughout the summer. They are among the most beautiful of all Roses. Although hardy, they do best if given some protection in winter. A slight covering of straw or manure is all that is necessary; or an equally efficient protection may be obtained by heaping soil, say, eight inches deep about each plant—removing same, of course, in early spring.

We offer below, in our opinion, a list of the most popular varieties—only such roses as have proved their worth in gardens throughout the country. They will do well in a great variety of soils and if properly cared for, will bloom the first year.

Eight Select Roses

90N07 Columbia. Deservedly one of the most popular among rose-pink varieties. Immense flowers are slightly tinged with yellow at base of petals. Long, strong stems. Flores of great abundance and fine lasting qualities, possess delightful fragrance.

90N13 Duchess of Wellington. The most popular yellow garden Rose. Intense saffron-yellow stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers develop. The flowers are fairly full, with large petals; great substance, delightfully fragrant and very free-flowering.

90N21 Hadley. Considered by many as being one of the best garden varieties of its color—a rich crimson, varying to deep velvety crimson. The flowers are well formed and fragrant. A free and continuous bloomer.

90N33 Kaiserin Augusta Victoria. After serving for a third of a century this still is, to our minds, the grandest white in cultivation. A continuous bloomer, producing quantities of snow-white flowers tinted with just enough lemon in the center to relieve the white. Remarkably fragrant.

90N47 Los Angeles. The following is the originator’s description, all of which we fully endorse: “Los Angeles is as by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of luscious, flame-pink, toned with coral and shaded with translucent gold at the base of the petals. The buds are long and pointed, and expand into a large flower.”

90N79 Red Radiance. A bright cerise-red form of the popular Radiant Rose.

90N85 Souv. De Claudius Pernet. Another season’s reports from all sections see this peerless rose emerge triumphantly as the most dependable golden-yellow rose of today. The color is a most striking sunflower-yellow; deeper in the center, without any color blending. It is equally charming in bud, or when opening fully fragrant.

90N83 Willowmere. Rich shrimp pink, shaded yellow, mine-pink toward the edges of petals. Long, carmine coral-red buds, carried on long, stout flower stems; very large.

90N00 Collection

Eight Select Roses

One strong plant each of Columbia, Duchess of Wellington, Hadley, Kaiserin Augusta Victoria, Los Angeles, Red Radiance, Souvenir de Claudius Pernet, and Willowmere (value $7.20), sent postpaid for only $5.75.

90N43 Lady Hillingdon

Large yellow flowers of a particularly pleasing apricot shade. It is one of the most free flowering and fragrant of the yellow varieties.

90N71 Radiance

One of the most gorgeous American sorts as yet introduced. The large, finely formed flowers are brilliant carmine-pink with salmon-pink and yellow shadings at the base of the petals. Produces its flowers when other varieties fail.

90N83 Willowmere

Five of the Best Everblooming Roses

Pictured in colors on inside back cover.

90N55 Mme. Edouard Herriot. The buds are coral-red in color, shaded with yellow at the base; the medium-sized, semi-double open flowers are coral-red, shaded yellow and bright rosy scarlet, passing to shrimp-red. A glorious color combination.

90N49 Miss Lolita Armour. A strong vigorous grower with beautiful flowers, deep coral-red, suffused with golden-yellow. The base of the petals is golden yellow, with an over-sheen of copper.

90N87 Sunburst. Long, lovely buds which open to large, perfectly formed and double flowers of sulphur yellow make this one of the most attractive varieties in its color class. Strong plants of spreading habit; quite hardy, but appreciates protection in cold sections.

90N89 Templar. An exceedingly fine, clear bright red variety, with fully double flowers.

90N98 Special Collection Offer

One plant each of the above five Roses (value $4.50), sent postpaid for only $3.85.

Four Choice Roses

90N39 Killarney Brilliant

A rich glowing shade of rosy-carmine. Flowers of true Killarney type. Splendid grower and free bloomer.

90N63 Ophelia. Salmon-flies, shaded deep rose, with chamois-color center. The buds and flowers are beautifully formed and admired by everyone.

90N59 Mrs. Aaron Ward

Its deep Indian yellow flowers, agreeably shaded in various tints of orange, are produced throughout the season. The long and shapely buds are particularly attractive.

90N61 Mme. Butterfly

Fine, light pink buds and flowers, tinted with gold near base of petals; exquisite shape; richly perfumed.

90N04 Collection

One plant each of the above four choice Everblooming Roses (value $3.60) sent postpaid for $3.20.

Any of the Roses offered on this page: 90¢ each; any 3 for $2.50; any 6 for $4.50; any 12 for $8.50, postpaid.

Our Roses, when sent out, are properly pruned, ready for planting. Cultural instructions sent with every order.
Maule's Hardy Hybrid-Perpetual Roses

Popularly Known as June Roses
These roses do not require winter protection, dependably hardy as far north as Alaska. They bloom profusely in June and early July and again in the fall if properly pruned and fertilized and if the soil is well cultivated. Instructions for pruning, fertilization, etc., sent with every order.

91N06 American Beauty
Rich dark carmine, a beautiful Rose under favorable conditions; large, globular and fragrant.

91N24 Frau Karl Druschki
(White American Beauty.) Color pure, snow white, with long buds and immense, perfectly double wax-like flowers.

91N36 General Jacqueminit
(Jack Rose.) Buds and flowers are considered models of perfection and its brilliant crimson color is the standard by which other crimson roses are judged.

91N72 Paul Neyron
Perhaps the largest of all roses, a single blossom often measuring 5 to 6 inches across. Color is clear pink, shading to rose. Sometime known the plant.

91N81 Ulrich Brunner
A brilliant cherry red, very fragrant; immense size; popular.

Hardy Climbing and Rambler Roses

Grow Rambler and Climbing Roses on Uninsightly Buildings and Fences or to Cover Porches, Arbors, Arches, Pergolas, Clothes Posts and Old Tree Stumps

Climbing Roses and Ramblers are most valuable on account of their quick growth and hardiness. Wherever a good cover or ground cover is desired, or an unsightly spot is to be covered, this class of many lovely flowers is ideal and satisfactory in every respect. They provide a good shade for the porch, and cover within a short time arbors, walls, fences, etc., entirely. An abundance of beautiful flowers, produced for many weeks, furnishing excellent cutting material. The healthy deep green foliage also is very attractive, and makes a good setting to the mass of blooms.

92N05 Dorothy Perkins
Flowers are perfectly double, with petals crinkled, clear shell-pink and borne in immense clusters that cover the bush. Strong grower, very hardy. A favorite and probably the best known of the Rambler.

92N10 Excelsa
(Red Dorothy Perkins.) The color is intense brilliant crimson. Flowers are large and double, produced in clusters of thirty to forty each. Best described as an Improved Crimson Rambler.

92N15 Flower of Fairfield
A truly everblooming Crimson Rambler, practically mildew-proof and of hardest constitution. Blooms freely in June and sparsely during the summer.

92N20 Gardenia
(Hardy Marechal Nielt.) The very pretty, pointed buds of this rose are nankin yellow, turning to waxy white when expanded. Hardy, blooms profusely.

92N28 Dr. W. Van Fleet
Delicate, shell-pink, mildly perfumed flowers are produced abundantly. The charming buds are large and pointed, while the open blooms are large and most attractive. The flowers are borne on long stems, making it desirable for cutting.

Any of the above Hybrid-Perpetual Roses: 85c each; any 3 for $2.35; any 6 for $4.25; any 12 for $8.00, postpaid.

92N73 Special Collection Offer
One plant each of Climbing American Beauty, Dr. W. Van Fleet, Gardenia, and Silver Moon (4 in all, each a different color, value $3.00) sent postpaid for only $2.50.

92N42 Mary Wallace
Well formed, semi-double flowers of a bright, clear rose-pink with salmon base to the petals, flowers large, generally exceeding four inches in diameter, very free flowering. A good, healthy grower.

92N56 Paul's Scarlet Climber
The brightest red, hardy climbing rose in existence. The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters of from 5 to 20 flowers each, the plants being literally covered from top to bottom with bloom.

92N70 Silver Moon
Buds are exquisite in form and color, and its many semi-double flowers are pretty and decorative, opening a soft nankin yellow and quickly changing to pure silvery white; are four inches or more in diameter and slightly perfumed.

92N71 Tausendschoen
(Thousand Beauties.) Produces so many different colored flowers on the same bush that it is appropriately called "Thousand Beauties." Flowers are semi-double and the colors range from tender rose through the intermediate shades of bright rose and carmine to pure white. A very strong grower and from early June until well into July it is literally covered with flowers. A peculiar characteristic of this variety is that it has no thorns.

All our Roses are extra strong, two-year-old, field-grown, dormant bushes.

Free flowering shrub, with showy, fragrant white flowers during June; grows 8 to 10 feet high. One of the most popular shrubs.

70c each; 3 for $1.85; 6 for $3.25; $6.00 per doz., prepaid

94N81 Snowberry
An old favorite. In July and August it has small pink flowers, which are followed by great numbers of large, pure white, waxlike berries in clusters that remain until freezing weather. Conspicuous and interesting. The well-rounded bushes grow from 1 to 3 feet tall. Valuable for shady places.

70c each; 3 for $1.85; 6 for $3.25; $6.00 per doz., prepaid

94N45 Paniculata Grandiflora
Probably the most popular of all shrubs. Extensively used as specimen plants on lawn, and excellent for hedge planting and screening, growing to a height of 5 to 7 ft. It is entirely hardy in all localities and blooms the first year. Use profusely every season thereafter. The large pyramidal panicles are produced in great profusion from July on for two or three months and measure a foot in length. The color of the florets is pure white when they first open changing gradually to a rich coppery-red as they age.

90c each; 3 for $2.25; 6 for $4.00; $7.00 per doz., prepaid

94N46 Hydrangea paniculata grandiflora

94N27 Flowering Crab

93N06 Aristolochia

Sipo (Dutchman’s Pipe)
Makes a cool porch on a warm day. A vigorous and rapid grower with large, heart-shaped deep green leaves for which it is most valued. The curious brownish purple flowers resemble miniature pipes.
90c each; 3 for $2.50; 6 for $4.75; $9.00 per doz., postpaid

93N10 Bitter Sweet

A handsome, native twining shrub of rapid growth, elegant, clinging vines, trees, etc., and one of the most desirable for shade. Has beautiful large leaves and bears yellow flowers in May and June, which are followed in the autumn with clusters of bright orange fruit.
50c each; 3 for $1.50; 6 for $2.75; $5.25 per doz., postpaid

93N13 Clematis Jackmani

Clematis
As beautiful and satisfactory as any vine you may plant.
93N13 JACKMANI. Sure to attract attention wherever grown. The large star-shaped purple blooms are produced with the greatest freedom from July until October. The plants make a vigorous growth and are suited for porches, arches, and walls.
90c each; 3 for $2.50; 6 for $4.75; $9.00 per doz., postpaid

93N23 Honeysuckle

HALLIANA (Hall’s Japanese). A strong, clean, neat grower, perfectly hardy, almost evergreen, with leaves that shine as if varnished; a constant and profuse bloomer. The flowers upon opening are practically white, changing to a soft rich yellow as they expand fully. Honeysuckle has always held a very important place in large as well as small gardens. The rich exquisite fragrance of the blooms is particularly noticeable toward evening.
50c each; 3 for $1.25; 6 for $2.25; $4.00 per doz., postpaid

93N65 Collection

One strong plant each of Bignonia, Clematis Paniculata and Honeysuckle (value $1.55), postpaid, only. $1.25

93N57 Wisteria

SINENSIS (Chinese Wisteria). Of rapid growth, often attaining a height of 15 to 20 feet in a single season. In May its flowers of soft, dainty lavender-blue are produced in racemes a foot or more long. One of the prettiest of all climbing plants. At times a few scattering blooms are borne in the fall.
75c each; 3 for $2.00; 6 for $3.75; $7.00 per doz., postpaid
Maule's Sturdy Fruit Trees

APPLES

96N05 Baldwin Standard fruit for American and export markets. Early winter; dark red; high quality.

96N09 Delicious No other sort has so completely won the country on the basis of sheer merit as has "Delicious." The apples vary slightly in shape and coloring in different sections and on different soils. An early and profuse bearer. Fruit large, dark red over a yellow ground, flavor of the finest.

96N13 Grimes' Golden The unusual, oblong conic shape and beautiful golden transparent yellow color make this variety widely known. It is famous for its superb flavor. Early winter.

96N19 McIntosh A deep red apple of large size; flavor extra good. Considered ideal by many. Fall.

96N22 Stayman’s Winesap One of the very best money-making winter apples; quality excellent. Red large size and pleasant flavor.

96N32 Yellow Transparent Very early, yellow summer apple, tart and pleasant flavor; roadside or nearby market favorite. Known everywhere and largely planted. July.
